

# The Forgotten Casks

A Sipping Cognac at its Best

**Cognac**

The Forgotten Casks are hand selected Cognacs that lay hidden in the recesses of cellars of the finest Cognac producers.

40% alc/vol

Lot numbers are designated for each Forgotten Casks selection indicating the year bottled and the selection sequence of the Cognac blend (Lot 16-2, Year 16 Bottling 2).

The inaugural 2016 bottling is composed of a small number of Cognacs from the Grande Champagne, Petite Champagne and Fins Bois districts. The aging is carefully conducted in old barrels to impart only a limited amount of tannins allowing delicate fruit and floral aromas and light vanilla notes to shine through.

This Cognac has a soft, mellow and warm character. It is delicate, light in hue and perfectly balanced. Two decades of aging has rounded out any harshness, and informs the incomparably long and elegant finish.

"The Forgotten Casks is a collection of rare casks or lots that I discovered while going farm to farm and distillery to distillery. At times they bear such high quality that I will bottle them as is. Others I acquire to form an exquisite blend." -Alain Royer

“It is remarkable to discover and rediscover how certain Cognacs tasted some 100 years ago. An extraordinary experience, and precisely what The Forgotten Casks series is all about.”

*The XO #2 Fins Bois is a totally different style, more in the line with cask strength bourbon or ryes. Very dynamic and straightforward, a mix of spice, flower notes and delicate oak.*

## KEYS IN JUST ONE POCKET

"It takes only two generations for a cask to become *Forgotten*. A grandfather keeps his collection private, aging in casks, some resting in demijohns... undisclosed even to his son, who maintains a stock of his own exquisite Cognac. Years pass with succession granted to ensuing generations who manage the family estate. There then comes a day when the recesses of the cellar are explored, and these treasures are discovered. Here is the magic. Here are The Forgotten Casks."      Alain Royer
