BRAND OVERVIEW

THE ORIGIN OF 4 COPAS

4 Copas was founded in 1997 by Hector Galindo Miranda—known simply as “Don Hector” in the industry—driven by a vision to craft a tequila that honored tradition while embracing purity. His pioneering efforts led 4 Copas to become the world’s first certified organic tequila, setting a new standard in the spirits world.

To bring this vision to life, Hector collaborated with legendary Master Distiller Sebastián Melendrez of Tequila, Jalisco. Together, they blended science and nature to create a spirit of exceptional quality, made exclusively from 100% organic agave, water from the lowlands, and organic yeast.

Today, 4 Copas is proudly owned by generational agave growers from Arandas, Jalisco—a family deeply rooted in the tequila tradition. Their heritage and hands-on approach ensure that every bottle of 4 Copas stays true to its origins while continuing to represent the finest in organic tequila.

Continuing the legacy of excellence, 4 Copas is now crafted under the guidance of Iliana Partida, one of the most highly regarded female Master Distillers in the industry. Production takes place at Hacienda De Oro, a distillery known for its artisanal methods and commitment to quality—faithfully continuing the brand’s legacy of being produced in the lowlands of Jalisco, near the Tequila Volcano. 4 Copas remains certified organic by the USDA and EU, and is also certified Kosher under Rabbinical law.

THE ORGANIC DIFFERENCE

Every bottle of 4 Copas begins with carefully selected seeds from certified organic agave fields located in the famed region of Amatitán. The unique combination of volcanic soil, warm climate, and high elevation creates a natural micro-terroir that deeply influences the agave’s development, imparting nuanced aromas and layered taste.

Grown without synthetic chemicals, the agave is cultivated using only organic fertilizers and cared for by hand through every stage. An organic expression of place and process that leaves a lasting impression with every sip.

Today, 4 Copas is proudly owned by generational agave growers from Arandas, Jalisco—a family deeply rooted in the tequila tradition. Their heritage and hands-on approach ensure that every bottle of 4 Copas stays true to its origins while continuing to represent the finest in organic tequila.

Continuing the legacy of excellence, 4 Copas is now crafted under the guidance of Iliana Partida, one of the most highly regarded female Master Distillers in the industry. Production takes place at Hacienda De Oro, a distillery known for its artisanal methods and commitment to quality—faithfully continuing the brand’s legacy of being produced in the lowlands of Jalisco, near the Tequila Volcano. 4 Copas remains certified organic by the USDA and EU, and is also certified Kosher under Rabbinical law.

THE ORGANIC DIFFERENCE

Every bottle of 4 Copas begins with carefully selected seeds from certified organic agave fields located in the famed region of Amatitán. The unique combination of volcanic soil, warm climate, and high elevation creates a natural micro-terroir that deeply influences the agave’s development, imparting nuanced aromas and layered taste.

Grown without synthetic chemicals, the agave is cultivated using only organic fertilizers and cared for by hand through every stage. An organic expression of place and process that leaves a lasting impression with every sip.

RAICILLA DE LA SIERRA ARTESANAL BLANCO

Benita • Sierra Alta Spirits • NOM 257

SILVER - World Spirits Competition, 2024

BRAND OVERVIEW

For centuries, raicilla has been shrouded in mystery, shaped by legends, rumors, and folk tales passed down by villages. Now, Sierra Alta Spirits has discovered a way to share its magic with the world - with the right expression and purpose - to soon claim their place.

Raicilla is made from the wild Maximiliana Baker agave, which is born in the highlands of Mascota, with its long green leaves and red thorns. These massive agaves are harvested by hand from steep slopes, often requiring donkeys to transport them back to the "taberna". They give life to the spirituous Raicilla Benita, extracting the best of the land and ancestors.

Predating Spanish influence in Mexico, raicilla has been distilled since the 17th century. Sierra Alta uses ancient Arab distilling techniques, 100% handcrafted in small batches to reflect the character of the land.

The intense "lágrimas" or tears in the glass reflect a direct result of their process, achieved by multi-generational knowledge passed from family member to family member. They apply ancient techniques, as simple as using "hornos de mampostería" to cook the agaves slowly, just like the old days.

The name "Benita" comes from its Christian origins, the name Benedicta, which in Christian tradition means blessed, with good luck, somebody that is trustworthy, kindhearted, and full of positive energy; somebody you can count on. The spirit is characterized by robust and herbal aromas, and framed by flavors of citrus. Benita's color reflects the purity and cleanliness of all of the production steps. It is as clear and brilliant as it can be, revealing its purity with no hidden additives.

What is Raicilla?

Literally meaning "little root", raicilla is an ancestral agave distillate with designation of origin in the Sierra Alta Occidental mountains and the western coast of Jalisco. The spirit is considered the regional cousin of mezcal. Raicilla is highly expressive and variable in taste, based on region and production techniques used, which are traditionally small-batch and artisanal.

OLD GENEVER

By The Dutch

DOUBLE GOLD - *The Fifty Best*, 2018
GOLD - Best of Category - *American Distilling Institute*, 2019
GOLD The Gin Masters - *The Gin Masters*, 2016

BRAND OVERVIEW

By the Dutch began in 2015 to tell a story of tradition and craftsmanship to the world with reintroducing traditional Dutch distillates.

The Netherlands historically has played a leading role in the world of fine spirits. The Dutch were the first to master the art of distillation from agricultural products, as well as the first to spread their technology internationally.

The By the Dutch portfolio has taken influence from the former routes of the VOC & WIC to create their portfolio. Education, transparency, and craftsmanship are of paramount importance at By the Dutch.

WHAT IS GENEVER?

Genever dates back to the 13th Century and was originally produced by simply distilling malt spirit to 50% ABV. The resulting spirit was not very palatable due to lack of refined distilling techniques, so herbs and spices were added to refine the flavors with the most distinguished botanical being juniper berries. In 2008, the Dutch Government and EU created an official AOC (Appellation d'origine contrôlée) for Genever which defines exactly where Genever can be produced. The

AOC did not only define the regions of production (Holland, Belgium and specific regions of France and Germany), but also the two distinct categories, Jonge and Oude. These terms do not refer to the aging of the spirit, but rather the production style.

Genever is comprised of 3 different grains: 1) Rye, which provides a strong harsh flavor; 2) Malted Barley plays a critical role of providing the enzymes for the fermentation process of rye and corn starch; 3) Corn is often used to soften the harsh flavors of the rye, while still allowing the complexity of the rye to shine through.

JONGE OR "YOUNG GENEVER"

The birth of Young Genever took place during WWII due to the lack of imported cereals and malt, forcing new blends to be created. Blends with less than 15% malt spirit and more neutral grain spirit creating a cheaper product. This led to a lighter and less dominant taste profile.

OUDE OR "OLD GENEVER"

Old Genever is the original style of production with more than 15% malt spirit, usually 51% to 70% malt spirit. By law it must be pale and caramel color.

PRODUCT OVERVIEW

TASTING NOTES

- Complex nose of spice, light malty aromas with a hint of juniper
- Anise and citrus peel spritz
- Orange flowers dusted with cinnamon
- Nuanced malt with cloves, bitter orange and a touch of cumin
- Satisfying finish full of flavor with lingering cooked malt

WHAT IS BATAVIA ARRACK?

In 1619, the Dutch founded a permanent colony in Java, at Jakarta, which they renamed "Batavia."

The Dutch financed a Chinese-manned sugar industry. Cane grew beautifully in Java, but the natives had no interest in pressing out and crystallizing the juice. Distillation is carried out using very traditional pot stills, adopting ancient Chinese distillers' methods.

The fermentation process includes the addition of wild yeast, which grows on a local red rice. This sets it apart from rum, although the base material is still 100% sugarcane molasses.

OAXACAN RUM

Camazotz

GOLD, *The Spirits Business Global Rum and Cachaca Masters Awards 2024*

GOLD, *Global Rum & Cachaca Masters 2024*

BRAND OVERVIEW

Deep in the hills of Oaxaca, the legend of a mysterious bat creature is said to escort those of the ancient Americas into the underworld. Mysterious, yet revered, the Camazotz legend inspired sacrifices throughout the Incas and Mayans to appease this beast. The Oaxacan Rum is steeped in tradition, and has reignited traditional "Aguardiente de Caña" to satisfy the local thirst for liquid connections to their ancestors. Camazotz Oaxacan Rum remains true to the traditions that reverberated through ancient cultures.

Leoncio Gaspar has taken the reigns from his father in producing a rum that is free from pesticides and fertilizers, making use of locally grown sugarcane in Sierra Mixe, and fermented openly, taking on natural

yeasts in the hills of Oaxaca. The distillery stands unchanged on the family ranch, which is a roadless 4k hike from the nearby village.

Created by hand, Camazotz Rum flavor is an exceptional window to view and taste a piece of Mexican heritage. Savory, earthy and grassy, balanced with a slight sweetness, the complexity of life is contained in a bottle like an elixir on the shelf in an apothecary.

Serve neat for an experience into the terroir of Oaxaca. Use as a base to discover a roller coaster of flavors alongside citrus juices and falernums. Camazotz is versatile and can replace most aged and/or agave spirits in classic recipes.

MEZCAL TOBALÁ SILVESTRE

Carta De Amor

Carta De Amor was founded on a lifelong dedication to crafting and sharing “crazy good” micro batches of agave spirits. The founders revel in uncovering unsung mezcaleros in their journeys through Oaxaca’s vast array of Palenque’s to source mind- blowing products with authenticity.

This Artesanal Mezcal was distilled in 2019 using hard to find, wild Tobalá. Tobalá is one of the smallest magueys in existence, measuring one eighth the size of an Espadín. It has broad, spade-like leaves. The compact size of this agave and its small piña yields limited quantities of mezcal and takes 12-15 years to reach full maturation. Tobalá are notoriously hard to pin down as the flavor and aroma vary

wildly from batch to batch, even from the same mezcalero. Yet, this agave offers intensely aromatic mezcal with complex notes of tropical fruit.

Crafted by third generation Master Mezcalero Erasto Martinez and his team, the wild-harvested Tobalá used is sourced from the Highlands at an elevation averaging around 5000 feet. Carta de Amor Tobalá Silvestre 2019 is crafted in the traditional method at his palenque in Tlacolula de Matamoros, Oaxaca. The team used earthen pit ovens using oak for cooking the agaves, open air pinewood fermentation vats, and a copper still. The mezcal has been rested for over two years before being bottled lovingly by hand. Only 798 bottles were produced in total.

Carta de Amor is a "love letter" from the land, the agave, and the people of Oaxaca

PRODUCT OVERVIEW

TASTING NOTES

- An herbaceous and piney aroma, with delicate floral herbs
- Sweet, cooked agave, raw honey, with fragrant verdant spices and tropical papaya

- Warming pear and piney finish

SERVING RECOMMENDATIONS

- Sip neat, from a Copita (small wide clay bowl)

Casa D'Aristi's Narano Bitter Orange Liqueur is made from a mix of Sweet Oranges and Naranja Agria, a sour orange, brought to the Yucatán from

Spain in the late 1500's. Naranja Agria is more commonly known in the United States as a Seville orange. In Mexico you will often find locals eating this sour orange sprinkled with hot chili powder or making lemonade. It is known for use in salsa and marinades with a tangy kick alongside an herbaceous note. Easily accessible for cocktail newcomers, Narano is useful in a wide range of cocktails desiring a tangy punch.

Taking pride in sustainable production practices, they maintain close relationships with the farming communities with a focus on keeping their products free of additives and flavorings.

The founder Don Carlos Aristi, had a heart for adventure. He set off at the age of 19 to travel the Yucatán peninsula in search of Mayan culture and history. He discovered "Blaché," an ancestral Mayan drink of fermented honey and bark, to which the Spanish settlers of the 1540s introduced green aniseed leading to the fruition of Xtabentún in 1935.

A brilliant and unique liqueur with green anise and Yucatecan bee honey!

The bottle design is 100% handmade by local and traditional Yucatecan artisans. The bottle includes classic Yucatecan elements: the Mayan offering Blaché, Chichen Itza pyramids, and the string wrapped around the cap is "henequen" ("sisal" in English), which is a fiber made from a native Yucatecan plant. Historically, the henequen industry was a major source of wealth and prosperity for the region and is a significant part of Yucatán's cultural and historical heritage.

BRAND OVERVIEW

Casa D'Aristi is a small producer of craft liqueurs and artisanal rums at its home in the heart of Yucatán since 1935, in the beautiful city of Mérida, and is committed to sustainable practices and maintaining close relationships with the farming communities. Founder Don Carlos Aristi set off at 19 years old to travel the peninsula in search of Mayan culture and history. It was then that he discovered a true gem: an ancestral Mayan beverage.

Their products remain additive and flavoring-free, focusing on quality and authentic flavors and recipes of Yucatán. Their spirits represent the best of the bounteous land in a bottle and have

continued to preserve the founder's legacy, sharing the treasures of the Mayan with the world.

Ron Caribe White Rum is a premium white rum straight from the heart of the Mexican Caribbean. Made from 100% sugar cane juice, this small batch rum showcases the essence of the region and the natural flavors of sugar cane juice, with tropical and citrus notes, and an elegant finish. Inspired by Cuban traditional aging methods, the rum is also aged in a solera-style process, creating a blend of different ages in the final product that results in greater depth and complexity.

ARMAGNAC
Appellation Bas-Armagnac contrôlée

CHÂTEAU DE LA BÉROJE BAS ARMAGNAC VINTAGES

La Béroje

1990 Vintage – GOLD -
Gilbert and Gaillard Guide, 2018

BRAND OVERVIEW

Armagnac is France's oldest brandy: around the beginning of the 11th century AD, distilling techniques that had originated in ancient Egypt came to Gascony via nearby Moorish Spain and its Al Andalus civilization. Just as the Romans had been quick to plant Gascony with vineyards, stills began to develop rapidly. By the 15th century, brandy had become one of life's pleasures, appreciated in its own right rather than solely for its therapeutic virtues.

The brandy is distilled on site according to traditional Armagnac methods or "Eau Ardente" whereby the burning water leaves the still at 52-53° to fill oak barrels in the cool shade of the barrel-room. Upon contact with the oak, the brandy quickly loses its bite, then mellows, taking on a pale gold and then

amber hue, the juices mingle: a violent dialogue in which the fragrances merge. The brandies reach their aromatic peak after about 30 years: aromas of vanilla, dried fruit, blossoming vines, prunes, candied apricot, lime-flower.

The range of vintages invites you to step into a world of flavors: an inner, jubilatory world where subtle memories of warm, fresh, indescribable fragrances spring to life. These sumptuous harmonies reflect the essential nature of Armagnac: product of a unique terroir, transformed by the heat of a still, impregnated with the aromatic substances of wood, softened by the years in the damp atmosphere of a dirt-floor barrel-room, where everything can breathe, mingle, and resonate.

'La Béroje' means 'The Beautiful' in the language of Gascony

MARASCHINO CHERRY LIQUEUR

Cherry Orchard

The maraschino liqueur is distilled using classic Italian techniques that date back to the 1700s. It was at the end of the 18th century when maraschino gained widespread fame across Italy and spread across Europe to distinguished courts. The exquisite flavor of the liqueur was greatly desired by many and the original flavors live on in spirit today.

The unique element to this maraschino is that it is distilled from both Marasca and Pecetto cherries, resulting in an especially aromatic and fruity cherry distillate. Marasca cherries are a prized agricultural product indigenous off the coast of Croatia, where Pecetto cherries come from Turin in the northern mountainous region of Italy, offering complex notes of each terroir.

AUTHENTIC ITALIAN FLAVORS AND TECHNIQUES

PRODUCT OVERVIEW

TASTING NOTES

GOLD - New York International Spirits Competition, 2023

BRAND OVERVIEW

During the Reform War and French Intervention, the Chinacos were independent landowners who were known as legendary fighters, admired by the people of Mexico. The leader of the Chinacos, General Manuel "El Manco" Gonzalez, acquired land in Tamaulipas and became president, where generations later his great grandson, Guillermo Gonzalez, founded Tequileria La Gonzaleña in 1972. Tequileria La Gonzaleña was the only distillery authorized to produce tequila in Tamaulipas, supplying the first ultra-premium tequila to the US in 1983.

Much of the tradition from the inception in 1972 is carried out today at Tequileria La Gonzaleña. From the technique and process, proprietary yeast, and the two restored, modified alembic copper stills, the distillery takes pride in maintaining precedent. The authenticity is also apparent, from the long, slow fermentation period that builds unique fruity and floral aromatics in the tequila, to the long-standing master distiller, Juan Angel, and the distinct white oak barrels from France and England.

They continue to craft the award-winning tequila with a passion for the traditional methods of the tequila distillation process.

Chinaco Tequila takes its name from legendary warriors and the bold and full flavors of the tequila aren't designed for the timid. With Chinaco being the only tequila produced in Tamaulipas, the terroir provides a unique flavor profile unlike any other tequila. At the family ranch, El Rosillo, they plant over 60,000 agaves annually, along with sourcing from other local farms. An unheard of practice today, these saplings are all from the same mother plants within the same region, providing unparalleled consistency and quality.

Chinaco Tequila Blanco is distinguished by its 100% agave taste. Bottled within five days of distillation, this tequila has a remarkably fresh, clean taste that's perfect for sipping neat, making premium margaritas or exquisite cocktails.

D'AINCOURT
COGNAC

D'AINCOURT PREMIER CRU DE COGNAC GRANDE CHAMPAGNE

D'Aincourt

Driven by a passion for Cognac's finest eaux-de-vie, D'AINCOURT founder Vincent Norguet is offering an exceptional Cognac from the Grande Champagne Cru. D'AINCOURT's vineyards were established in 1830, the 35 hectares vineyard and distillery are in the heart of the Cognac region. D'AINCOURT Cognac showcases the rarest eau-de-vie in a carafe, expressing all the elegance and power of timeless Cognacs, as well as French artisan expertise and authenticity. Vincent and Julien Nau, a sixth-generation distiller and master blender, labored long and hard on blending to define the D'AINCOURT style and put the first compositions together, guided by the aromatic requirements of the great Cognacs and taking an uncompromising approach with total creative freedom.

"The final and common vocation between an artist, an artistic creator or a great Cognac House is to cause emotions through its works. This sensorial experience should awake an aesthetic memory, an emotional imprint, a timeless moment..." - Vincent Norguet, Founder of D'AINCOURT Cognac.

D'AINCOURT Cognac comes in an exclusive, authentic carafe, a timeless, reinterpretation of the original Cognac bottle. Created at a French artisan glassworks by master glassmakers using traditional techniques, each D'AINCOURT carafe is a unique item.

The clear, silky style of D'AINCOURT Cognac is characterized by the minerality, and aromatic power offered by very old eaux-de-vie from the limestone terroir of Grande Champagne, a Cognac Premier Cru. This unique, hugely elegant composition odes to contemplation, charming the senses of great cognac lovers seeking a taste of nobility.

Because of the extreme rarity of the eaux-de-vie used in the blend, only around a hundred bottles are produced each year. The luxurious D'AINCOURT Premier Cru de Cognac Grande Champagne is available in a handcrafted black piano finishing wood box.

MYTHE ABSINTHE TRADITIONAL

Distillerie des Terres Rouges

94 POINTS - Wine Enthusiast 2024

After a decades-long ban, absinthe production was revived in the early 21st century. Before bringing this special elixir back to life, the Terres Rouges Distillery carried out long and patient research into old recipes from the 1900s. Mythe Absinthe is an authentic, traditional absinthe that replicates the best recipes of the golden age in both its extensive ingredients and its sophisticated process.

Master Distiller first creates a plant infusion containing hyssop, verbena and wormwood as principal ingredients, and then adds several other plant based spirits. Staying true to the original production method, Mythe Absinthe is distilled five times in the distillery's Charentais stills. The beautiful color and bouquet is endowed by the natural plant macerations.

According to Terres Rouges, absinthe is both a plant and a drink. Artemisia Absinthium, better known as wormwood, is the star player in the historical spirit. For this particular absinthe, the

PASTIS DES TERRES ROUGES

Distillerie des Terres Rouges

Pastis came to life in Marseille, Southeastern France, in 1915 following the prohibition of absinthe. While it is often compared to its predecessor, it is quite different from absinthe. It traditionally does not contain wormwood and has a much stronger flavor and presence of star anise. It also exhibits distinct flavors of licorice root, not typically found predominantly in absinthe. The presence of sugar is also a characteristic of pastis as opposed to absinthe.

The Master Distiller at Terres Rouges in Turenne has crafted a delicate aromatic bouquet of ten plants and spices that include the traditional

ingredients for pastis, including star anise, aniseed and licorice. Pastis gets its rich and complex aromas from the infusion of plants and blending together of several different distillates. The color is completely natural and comes from the infusion of plants and liquorice. The intense and unique character of the pastis is the perfect illustration of the Terres Rouges Distillery's outstanding expertise.

ESPADÍN JOVEN MEZCAL ARTESANAL

El de Barra

“El De Barra” means “the one for the bar”, also known in Mexican slang as “the house mezcal”. It was created to share the Mexican daily ritual of coming home at the end of a long day and knowing that the house mezcal is waiting at the table. You’ll find it at the entrance usually on the “Ofrenda” to pay respect to the dead and welcome the living.

Mezcaleros. El De Barra is crafted in their “palenque” with the knowledge and cultural heritage passed down through generations of Mezcaleros from this region. They use 100% sugars of our agave Espadín, cultivated in the white terroir of the elevated highlands (1,600m) of the central valleys of Oaxaca, in Tlacolula de Matamoros.

As Mezcaleros, they offer a well-crafted, artisanal mezcal at a competitive price, because they don’t have a “middle man”. They are agronomists that cultivate the agaves, the producers that extract its magical spirit, and the ones that encase it in a bottle. Their mezcal is distilled by their Maestro Mezcalero Francisco Jeronimo, third generation of

El de Barra Mezcal is designed to be your house mezcal, the one you use to create a long list of cocktails or the one you quickly pour for a toast. It is best consumed neat on a hot summer day and perfectly priced for mixing in cocktails.

THIS IS THE HOUSE MEZCAL – THE ONE FOR THE BAR

CENTERBA 72 ITALIAN DIGESTIVE

Enrico Toro

95 Points, GOLD - Exceptional, Beverage Testing Institute 2018
90 Points - Highly Recommended - "Excellent", Ultimate Spirit Challenge 2016
SILVER, Wine and Spirits Wholesalers of America 2016

BRAND OVERVIEW

In the early 1800's, Beniamino Toro Sr. moved to Tocco da Casauria, a commune in Abruzzo. Beniamino discovered a local herbal elixir dating back to the Benedictine Friars who built the San Clemente at Casuria Abbey in 1100.

In 1817, Centerba Toro was born. This sophisticated liqueur is made from the alchemy of 200 wild and naturally grown herbs selected and picked by experts at the slopes of the Maiella, Abruzzese Mountain.

Beniamino opened a pharmacy in the late 1800's and commercialized his prized Centerba, which was known as a homemade product until this time. Overtime, the monasteries lost their notoriety for the elixir, but it remained a staple in the Casauria community.

Centerba largely rose to fame during the cholera epidemic of the late 19th century in Naples. It was said every evening there were well-supplied wagons of Centerba bottles heading for the Neapolitan capital. The herbs in this spirit are well known for their restorative and healing properties.

1972 marked the year Enrico Toro and his father, Roberto, built a distillery to keep up with market demands of their ancestral herbal liquor. Thus, the family rebranded Centerba Toro as Centerba 72. Centerba 72 has a variation of 2 elements compared to the originating Centerba Toro recipe and it is said to be superior to the original formula. Being 140-proof, it is a most provocative winter warmer for both head and belly.

In the Abruzzo region, there is the tradition to mix together Sambuca (anise based liqueur) and Centerba. As such, it was natural for the Enrico Toro Casauria Distillery to create a liqueur. Centuca 72 was the result and is a perfect balance between the unmistakable taste of "Centerba Toro" with a touch of the classic, Italian Sambuca.

Genziana 72 follows suit in the company's tradition containing gentian gathered from the Apennine Mountains and rhubarb gathered in the Italian Alps; both mountain ranges going through the Abruzzo region. This expression features a particularly bitter, yet floral brightness from gentian root and rhubarb stalk. The bitter-sweet tasting liqueur is amber in color. It is particularly appropriate to be served at the end of a meal for its digestive properties.

The basis of Genziana 72 liqueur is the extraction of the ingredients obtained in an alcohol tincture through a cold infusion. The ingredients are meticulously selected and processed to make the extraction of the natural properties more potent and highlight the earthy flavors of the gentian and the round mouthfeel of the rhubarb.

EAU-DE-VIE FRAMBOISE

F. Meyer Distillery

93 POINTS, Wine Enthusiast 2024
 GOLD, Concours Général Agricole 2018, 2019, 2023, 2024

BRAND OVERVIEW

Distillerie F. Meyer is the most awarded distillery in France for the excellence of its Eau-de-Vie, with over 219 medals, including 105 Gold, 73 Silver and 41 Bronze, at the Concours Général Agricole de Paris since 1959. Fridolin Meyer founded the F. Meyer Distillery in 1958, but their story begins earlier in 1890. In the gastronomically rich province of Alsace, France, Joseph Meyer, father to Fridolin, was a home distiller creating eaux-de-vie from locally grown fruits. At the foot of the Vosges Mountains, the Villé valley was and is full of plentiful orchards with cherries, pears, plums, and a wide array of berries.

Fridolin grew up tasting these life-giving spirits and wanted to continue his father's legacy. Fridolin went further and worked with the Ministry of Agriculture to develop policy around the cultivation of fresh fruit to ensure that only the best quality produce could be used for spirits.

Handed down through the generations, the 3rd generation of Meyers have run the distillery since 2008. Every year they distill 400 tons of fruit in their Holstein-type stills*. They are among the rare distillers in France who have a computer-controlled system of distillation, allowing steady quality. After distillation, the eaux-de-vie are rested in stainless steel tanks for 2-4 years.

F. Meyer Eau-de-Vie Framboise is vibrant, bursting with the full flavor of the raspberry fruit and refreshing green undertones.

F. Meyer Eau-de-Vie Kirsch is made from cerise de Guigné, which was obtained by crossing a conventional black cherry with a wild black cherry from the Valley of Villé, over 250 years ago. It is found mainly in the Valley of Villé. Its color is a deep, intense black, with soft, gelatinous flesh, providing a balanced complexity of flavor and aroma.

** Holstein has been making stills in Germany since 1958 and are known around the world for innovation and quality.*

PRODUCT OVERVIEW

TASTING NOTES

- Beautiful aroma of cherries and roses
- Full cherry flavor
- Fantastically balanced with subtle nutty flavor

SERVING RECOMMENDATIONS

- Neat

PRODUCTION PROCESS

*Guinge Cherry is almost black in color and ripens earlier than other cherries. It has a jelly like flesh and is typically found in eastern France.

**The temperature of the tanks is regulated by an electrically powered cold unit.

***The cherries are stirred daily during the fermentation process. This allows the fruity flavors of the pulp and the tart flavors of the pits to meld creating a slight almond aroma.

EAU-DE-VIE POIRE WILLIAMS

F. Meyer Distillery

SILVER, Concours Général Agricole 2024

BRAND OVERVIEW

Distillerie F. Meyer is the most awarded distillery in France for the excellence of its Eau-de-Vie, with over 219 medals, including 105 Gold, 73 Silver and 41 Bronze, at the Concours Général Agricole de Paris since 1959. Fridolin Meyer founded the F. Meyer Distillery in 1958, but their story begins earlier in 1890. In the gastronomically rich province of Alsace, France, Joseph Meyer, father to Fridolin, was a home distiller creating eaux-de-vie from locally grown fruits. At the foot of the Vosges Mountains, the Villé valley was and is full of plentiful orchards with cherries, pears, plums, and a wide array of berries.

Fridolin grew up tasting these life-giving spirits and wanted to continue his father's legacy. Fridolin went further and worked with the Ministry of Agriculture to develop policy around the cultivation of fresh fruit to ensure that only the best quality produce could be used for spirits.

Handed down through the generations, the 3rd generation of Meyers have run the distillery since 2008. Every year they distill 400 tons of fruit in their Holstein-type stills*. They are among the rare distillers in France who have a computer-controlled system of distillation, allowing steady quality. After distillation, the eaux-de-vie are rested in stainless steel tanks for 2-4 years.

F. Meyer Eau-de-Vie de Poire Williams exudes aromas of pear skin with a gentle sweetness and a refreshing hint of tartness that displays the complexity of the Williams pear.

FAIR® MANGO LIQUEUR

BRAND OVERVIEW

FAIR® was created in 2009 to develop a line of high quality liqueurs and rare spirits with a positive impact on people and the planet. They have been committed from the very start to giving 1% of revenue back to the farming communities that provide their superior crops. FAIR® does not just label products as ethical – “they create real sustainable change by equitably distributing resources to the beginning of the supply chain, leveraging local and regional agricultural expertise, and creating standards that protect people and the environment.”*

Fair Trade is a global movement made up of a diverse network of producers, companies, consumers, advocates, and organizations putting

people and the planet first. Products bought, sold, and consumed every day are connected to the livelihoods of others; Fair Trade is a way to make a conscious choice for a better world.

FAIR® Mango Liqueur is made using fresh mango, sourced from the northern part of Peru, in the Chulucanas Valley. First, the mangoes are juiced and then infused with neutral alcohol (with the pulp) for two weeks, and then slowly reduced by adding fair trade liquid sugar and demineralized water for a perfect balance.

FAIR® Mango Liqueur is:

- Fair Trade
- Non-GMO
- Vegan
- Gluten-free

BRAND OVERVIEW

The Fassbind distillery was founded in 1846 by Gottfried Fassbind in Oberarth SZ, in the heart of Switzerland. Since then, Fassbind has dedicated themselves to the mastery of distilling handcrafted, pure fruit spirits from Swiss premium fruit.

In 2014, Best Taste Trading, a distinguished import and distribution company in Switzerland took over the Fassbind Company to restore the historic distillery.

Today, Fassbind is the oldest functioning distillery and the second biggest distiller in Switzerland. They distill fruit according to recipes handed down in the family for 170 years.

LES EAUX DE VIE

Our Most Traditional, Handcrafted Fruit Spirits

The most renowned fruit spirits from the Fassbind distillery are still produced from the secret recipe, which has been passed on through the generations of Master Distillers. The fruit is chosen after their strictest quality criteria using only A-traded Swiss quality fruit. The young spirit is stored for at least one year and gets blended by the Master Distiller before bottling.

FERDINAND'S SAAR DRY VERMOUTH

Capulet & Montague, LTD

GOLD - Packaging design,
LA International Spirits Competition 2015
SILVER,
Wine and Spirits Wholesalers of America 2019

BRAND OVERVIEW

The creators of Ferdinand's are the brothers Denis Reinhardt and Erik Wimmers, as well as their friends Andreas Vallendar, Master Distiller, and Dorothee Zilliken, winemaker of the VDP winery Forstmeister Geltz-Zilliken. The four friends have created a unique handmade product through their shared passion for high-quality spirits. They have dedicated themselves to the idea of an aromatic image of their home region.

THE STILL

Master Distiller Vallendar engineered the exclusive still used for the Ferdinand's product line, and the unique, hybrid copper pot still has a reputation which far exceeds their hometown in the Saar, as producers around the world have given recognition and bought into its pristine production. Only 64 stills were ever sold.

A TRUE FARM TO BOTTLE

All botanicals and the quince for their vodka are sourced from the Saar region including some being farmed by the brothers and master distiller. Organic in nature and true to its source, you can taste the terroir in each and every bottle.

RIESLING PERFECTION

The riesling found in Ferdinand's products is exclusively made by winemaker Zilliken of Rausch Vineyards, who brings forth over 200 years of family tradition and her winery is deemed one of the most prominent German wineries to date. Volcanic and slate soil with harsh weather conditions makes for the brightest acidity riesling with floral notes and a beautiful, round vanilla finish.

THE DRY VERMOUTH

Ferdinand's Saar Dry Vermouth is infused with native regional and vineyard botanicals. The large, steep south-facing slope of the Grand Cru Saarburger Rausch vineyard, it's rough Devonian shale soil and the cool climate of the Saar are perfect conditions for the beginnings of this fine vermouth.

The minerality and fruit of the hand-picked Saar riesling grapes, the bitterness of the wormwood and the floral, spicy aromas of the regional herbs and flowers give this selection its unique lightness and elegance. The world's first riesling vermouth is handcrafted in small batches with limited availability.

PRODUCT OVERVIEW

TASTING NOTES

- Drying though subtly sweet with white grape
- Paired with wormwood elegance
- A peppery touch of coriander and a light-whisper of thyme

SERVING RECOMMENDATIONS

- Slightly chilled
- Pairs well with stone fruits and spices
- Great addition to any martini

PRODUCTION PROCESS

1 Ortswein is part of the a newer classification in Germany known as VDP. These wines originate from a village's best vineyards that are planted with grape varieties typical of their region.

THE GIN

Independent of their mutual friendship, the creators of Ferdinand's all instantly agreed they wanted a gin which reflected the terroir of the region and their independent specialties. To be true to their vision, the group distills their own neutral grain alcohol of wheat, spelt, and rye. The recipe of the riesling-infused Ferdinand's Saar Dry Gin is a tribute to the fertile landscape of the Saar region. Over 30 finely tuned botanicals, mainly from their own cultivation, in combination with the finest Riesling grapes from the great Saarburger Rausch site, stand for the highest drinking pleasure.

PRODUCT OVERVIEW

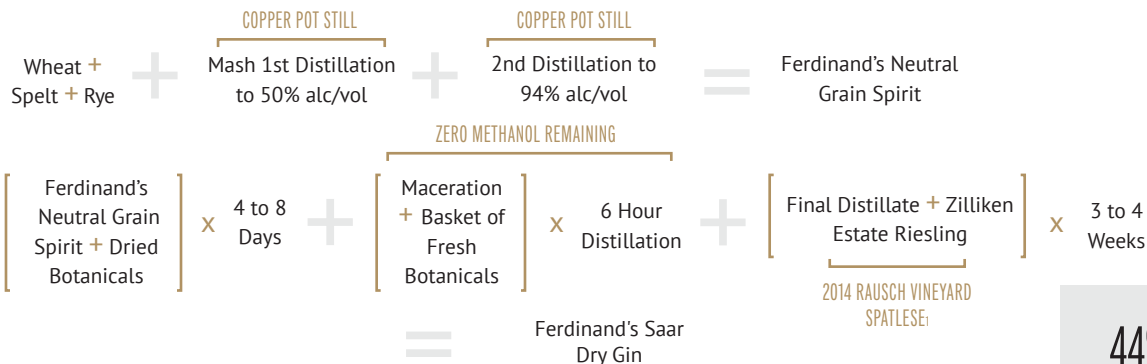

TASTING NOTES

- Hint of smoked and toasted spice, black tea-like
- Mid-palate is bittersweet
- Viscous and silky

SERVING RECOMMENDATIONS

- Chilled in a rocks glass
- Pair with tropical fruits
- Utilize in a martini

THE QUINCE VODKA

Ferdinand's Saar Quince is derived from freshly harvested clary quinces, a rare pear quince variety, from their own cultivation. The infusion of their Rausch Kabinett form the basis for our regional homage to British Sloe Gin.

The sugar levels of the quince are measured with each crop to provide the balance year-to-year. Each vintage may vary in color and in taste.

The Program

The Forgotten Casks Cognac selections are special casks that have in their own way been forgotten in time. Custom blends are created in a way only a small, specialty merchant and master blender can work.

Exclusivity is central to this premium selection. With rare, sourced casks and personalized blends, no two selections will be the same, nor is a selection able to be replicated. Blends are created on a per lot basis with the remainder of Cognacs left to age, unblended.

This specialized selection process represents a unique Cognac experience with each bottling, showcasing a new and interesting variation.

MARASCHINO LIQUEUR

Fratelli Vergnano 1865

BRAND OVERVIEW

In 1865, Bartolomeo Vergnano took a keen interest in alchemy and knowledge of Italian botanicals to formulate artisan liqueurs following the Piedmont liqueur-making tradition.

Today, after three generations, Valter Vergnano has the same enthusiasm and alchemist inclination. The core focus has been professionalism, transparency, raw materials quality, and first rate finished products.

Fratelli Vergnano Maraschino Liqueur is made by infusing whole Marasca cherries and their crushed pits in an alcoholic solution to create an extract, which is then distilled to separate the "heart" of the distillate. This marasca distillate is then brought down to proof and blended with sugar, resulting in a clear cherry liqueur with subtle bitter almond notes from the pits.

AUTHENTIC RECIPES PASSED DOWN THROUGH GENERATIONS

by the American Distilling Institute

BRAND OVERVIEW

Full Circle Craft Distillers Co. is the first authentic craft distillery in the Philippines, located in Calamba, Laguna. Their goal has been to handcraft and launch a world-class line of artisanal spirits on the global stage to prove that the Philippines can compete, world-wide, with the very best craft spirit brands.

Their Archipelago (ARC) line highlights a passion and commitment to craft, precision, and excellence. Using time-honored techniques and processes, Full Circle produces their spirits in small batches on their state-of-the-art German copper still. Archipelago also works to promote inclusive development that helps connect farmers to supply chains and creates local opportunities for employment.

ARC Botanical Gin is handcrafted from a rare and wonderful blend of 28 botanicals, with 22 of these exotic botanicals are directly foraged or sourced from across the Philippine archipelago. ARC Botanical Gin is unfiltered, to ensure that all the flavors and oils from these carefully selected botanicals are retained.

At room temperature, these oils stay dissolved in the spirit however, when chilled or poured over ice, they may separate and turn cloudy. Full Circle proudly embraces this distinction, opting to prioritize flavor over presentation.

American Distilling Institute

BRAND OVERVIEW

Full Circle Craft Distillers Co. is the first authentic craft distillery in the Philippines, located in Calamba, Laguna. Their goal has been to handcraft and launch a world-class line of artisanal spirits on the global stage to prove that the Philippines can compete, world-wide, with the very best craft spirit brands.

Their Archipelago (ARC) line highlights a passion and commitment to craft, precision, and excellence. Using time-honored techniques and processes, Full Circle produces their spirits in small batches on their state-of-the-art German copper still. Archipelago also works to promote inclusive development that helps connect farmers to supply chains and creates local opportunities for employment.

ARC Botanical Gin is used in as the base in the Barrel Reserve Gin. It is handcrafted from a rare and wonderful blend of 28 botanicals, 22 of these exotic botanicals are directly foraged or sourced from across the Philippine archipelago.

Full Circle sources handcrafted 225-liter oak barrels from Seguin Moreau in Napa Valley, one of the world's top cooperages, to gently age their ARC Barrel Reserve Gin. The gentle, medium toast allows the oak flavors to intertwine with their citrus-forward gin and not overpower the botanicals. Each barrel must be carefully monitored so the gin can be removed from the barrel before it becomes over-oaked. This ensures that the gin retains its softer tropical botanical notes, which might otherwise be lost.

ELIXIR D'ANVERS

F.X. de Beukelaer

For more than 160 years, FX de Beukelaer has used dozens of plants and herbs from around the world to distil the authentic Elixir d'Anvers. The recipe for this artisanal liqueur has remained unchanged since François-Xavier de Beukelaer developed it in 1863. Its unique taste has been loved by many generations and today inspires chefs and mixologists to create inventive dishes and cocktails.

Ivan Nolet, a member of an old distillery family, became CEO of the Elixir d'Anvers distillery in 1998, succeeding the de Beukelaer family. He runs the distillery in the spirit of its founder, François-Xavier de Beukelaer, bringing much-needed modernization to the company while maintaining respect for tradition.

"The recipe and the quality of Elixir d'Anvers have always remained the same," he said.

In 2021, his son, Carl-Ivan Nolet, joined the family distillery and works closely with his father, who teaches him the unique philosophy behind Elixir d'Anvers. The distillery is now listed as a cultural heritage site by the Flemish government.

Discover the complex flavours and fragrant aromas of the unique Elixir d'Anvers and be amazed by its tradition and limitless possibilities. Elixir d'Anvers is your perfect companion from aperitif to dessert and a perfect drink at any time of the day.

BRAND OVERVIEW

The spirit of Armagnac has been steeped in history and traditions for more than two centuries. During much of that time, bartenders have been trying figure out ways to preserve the integrity of a spirit that is rich in aroma and fruity, dry characteristics. Gaspard de M. has set their mind to create a highly accessible, yet innovative eaux-de-vie for bartenders. Armagnac cocktails have never been easier to master with the Blanche Bas Armagnac.

This unaged armagnac features a blend of Ugni and Colombard grapes that display a bouquet of flowers, funky exotic fruit with peppers. Vines range from 3 to 30 years and are grown

in soil with high clay content called “tawny sands” resulting in grapes with higher acidity. Unaged, but rested for one year in steel vats, allows the intended fruity, dry characteristics of armagnac to be preserved and enjoyed by the drinker and drink maker. Bottled at a high proof (44.5% ABV), the Blanche expression pushes through on any serving technique.

Blanche is highly effective in sours and drinks with fruitier flavor profiles. Blanche has a brightness that can punch up tiki cocktails, sours like daiquiris or mojitos, but can also add complexities to cocktails like a Vesper or Martinez.

AOC OF BLANCHE BAS ARMAGNAC

From vines grown in the Villeneuve-de-Marsan region, the wine rests on the lees, unfiltered, until distillation which gives dry, fruity profiles to the finished product.

PRODUCT OVERVIEW

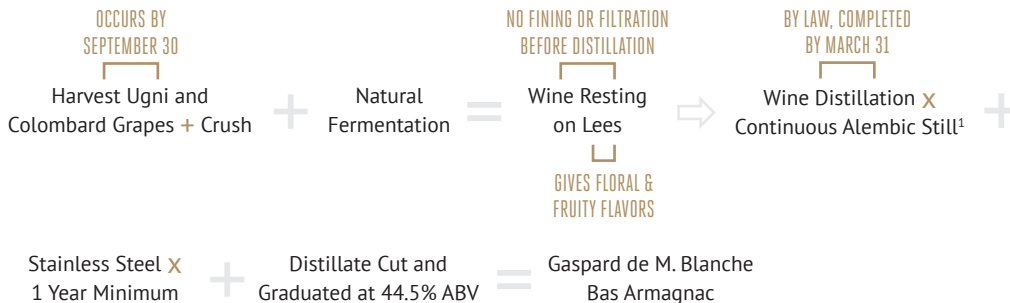

TASTING NOTES

- Tropical fruit notes accompanied by peppers and white flowers
- Smooth finish
- Very bright and light

SERVING RECOMMENDATIONS

- Great for tiki cocktails
- Adds complexity to shaken cocktails like a Mai Tai, mojito, or sidecar
- Punch up a stirred cocktail that normally features gin and vermouth

DISTILLER'S CUT BAS ARMAGNAC

Gaspard de M.

BRAND OVERVIEW

The spirit of Armagnac has been steeped in history and traditions for more than two centuries. At Gaspard De M., vines—which can date 30 years old—have seen the changes in weather and soil conditions. During much of that time, bartenders have been trying to figure out ways to preserve the integrity of a spirit that is rich in aroma and fruity, dry characteristics. Gaspard de M. has set their mind to creating a highly accessible eaux-de-vie for bartenders. Armagnac cocktails have never been easier to master with the Distiller's Cut Bas Armagnac.

This 3-year aged armagnac features a blend of Ugni and Colombard grapes grown in clay loam

soils known as “tawny sands.” Distiller's Cut bas Armagnac displays a bouquet of flowers, gentle wood notes, baking spice and hint of roasted coffee. Used and fresh Gascony black oak barrels add character and spice to cocktails of all kinds. Bottled at a high proof (45.3% ABV), the Distiller's Cut expression pushes through on any serving technique.

Distiller's Cut carries cocktails of any technique and serving style. Citrus and herbs such as mint can make an interesting, delicious, and refreshing smash. The age and woodiness is perfect in stirred cocktails like a sazerac, old fashioned, and Manhattan variations.

AGING OF GASPARD DE M. BAS ARMAGNAC

During their time in the unique 16th century cellar, the eaux-de-vie are carefully monitored, aerated, and blended (Angel's Share Ranges 1.5% - 4% Annually).

PRODUCT OVERVIEW

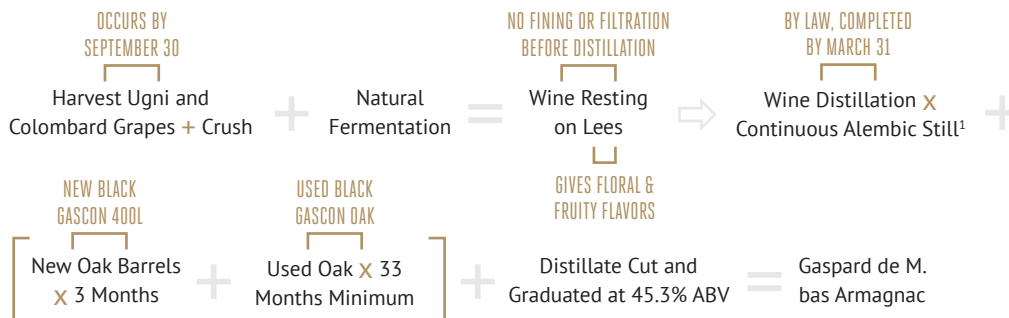

TASTING NOTES

- Woodiness paired with spices reminiscent of whiskey and rum
- Fresh prunes and wood aromas
- Roasted coffee finish
- Fruity, baking spice and dry finish

SERVING RECOMMENDATIONS

- Great for stirred cocktails
- Interesting substitute for whiskey in cocktails containing lemon and grapefruit
- Pairs fantastically with vermouths and liqueurs such as crème de menthe and crème de cacao

BRAND OVERVIEW

Over a century ago a man named Sergio Caetano started distilling cachaças outside the city of Belo Horizonte in the rolling hills of Nova União. Caetano created Germana cachaça to showcase the unique flavors of southwestern Brazil in the heart of Minas Gerais.

In Portuguese, the name Germana means "something unmixed, pure and genuine." Caetano picked this name for his cachaça and to honor the life of the famed nun, Sister Irma Germana. Sister Germana lived at the Sanctuary of the Serra da Piedade, southwest of Nova União. She was known to be a healer, who aided pilgrims and visitors with infusions made from cachaça and herbs which she picked on the mountainside.

Germana begins with hand cut sugarcane, grown on the Caetano's family farm free of chemicals, and pesticides. The cane is harvested on their farm, pressed the same day and left to ferment in open-air vessels for about 24 hours, depending on the ambient temperature. To aid the process of natural fermentation, Germana also adds a measure of toasted maize which is grown and ground locally. After fermentation, the wash is distilled in direct-fire copper pots stills using the pressed and dried sugarcane as fuel.

Germana Soul Cachaça is a pure expression of Minas Gerais. After distillation the Cachaça is rested in stainless steel vats for two years. This resting period allows the spirit breath and express the true soul of cachaça without the influence of wood. The result is a crystal-clear spirit that sets the standard for artisan cachaça.

germana® CACHAÇA GERMANA SINGLE BARREL CASK

Germana

BRAND OVERVIEW

Over a century ago a man named Sergio Caetano started distilling cachaças outside the city of Belo Horizonte in the rolling hills of Nova União. Caetano created Germana cachaça to showcase the unique flavors of southwestern Brazil in the heart of Minas Gerais.

In Portuguese, the name Germana means “something unmixed, pure and genuine.” Caetano picked this name for his cachaça and to honor the life of the famed nun, Sister Irma Germana. Sister Germana lived at the Sanctuary of the Serra da Piedade, southwest of Nova União. She was known to be a healer, who aided pilgrims and visitors with infusions made from cachaça and herbs which she picked on the mountainside.

Preiss Imports, as the official importer and distributor of Germana in the United States, personally selected two casks from the impressive cask inventory of Germana, where they were carefully bottled in cask

strength and packed as single cask bottlings - so-called “Barril Unico” - exclusively for the American market. These are the first and very rare single-cask bottlings of Germana Cachaça to arrive in the United States. Germana only liberates a small number of casks every year for single-cask bottlings. These noble and very limited exclusivities prove that handcrafted Cachaça Artesanal can also be enjoyed pure in this quality and is an extraordinary experience.

The distillery is built 3300 feet above sea level in the hills of Minas Gerais, where temperatures can reach lows of 32 degrees Fahrenheit and highs of up to 104 degrees Fahrenheit during the year. Due to these temperature changes, the angel share is between 4 to 5 per cent, ageing our cachaça 2 to 2.5 times faster than single malt whisky in Scotland. Our single-cask bottling can hold comparison to premium single-malt whiskies and premium rums

Serving as North America's first single malt distillery, Glen Breton has set a high bar of excellence for single malts created in Canada. Nestled among the hills of Nova Scotia, Canada, forward thinkers founded Glenora Distillery back in 1989 with the help of one of the whisky world's greatest minds, Jim McEwan. Using traditional pot stills, mash tuns and maturation processes, Glen Breton was born and became one of the world's most sought-after single malts (figuratively and legally).

Their water is sourced from MacLellan's Brook, which starts in the Cape Breton Highlands, Glen Breton directly takes on

the identity of their 900-acre property from start to finish. On the property, fields of heather grow alongside a maple wood forest, which directly impacts their flavors while ageing in ex-bourbon casks. With cold winters and hot summers, the ex-bourbon casks elevate the terroir during the natural breathing cycle year after year.

The result of sitting in a dunnage warehouse year after year has resulted in numerous awards from around the world. Enjoy this whisky neat, on a large ice cube or play around with an Old Fashion with a barspoon of maple simple sugar, allspice dram and aromatic bitters.

2024 World Whiskies Awards

Serving as North America's first single malt distillery, Glen Breton has set a high bar of excellence for single malts created in Canada. Nestled among the hills of Nova Scotia, Canada, forward thinkers founded Glenora Distillery back in 1989 with the help of one of the whisky world's greatest minds, Jim McEwan. Using traditional pot stills, mash tuns and maturation processes, Glen Breton was born and became one of the world's most sought-after single malts (figuratively and legally).

Their water is sourced from MacLellan's Brook, which starts in the Cape Breton Highlands, Glen Breton directly takes on

the identity of their 900-acre property from start to finish. On the property, fields of heather grow alongside a maple wood forest, which directly impacts their flavors while ageing in ex-bourbon casks. With cold winters and hot summers, the ex-bourbon casks elevate the terroir during the natural breathing cycle year after year.

The result of sitting in a dunnage warehouse year after year has resulted in numerous awards from around the world. Enjoy this whisky neat, on a large ice cube or play around with an Old Fashion with a barspoon of Maple simple sugar, allspice dram and aromatic bitters.

When the Scotch Whisky Association launched its lawsuit against Glenora Distillery in 2000, shortly after the release of its first bottling proudly called "Glen Breton Rare", a media frenzy soon followed in newspapers, magazines, and in online newsletters, forums, and blogs North America's only Single Malt Whisky distillery was a hot topic amongst the whisky and local cultural communities. Upon victory in the summer of 2009 it was decided to dedicate a bottling to celebrate this epic battle, so fittingly called the "Battle of the Glen." The packaging features some of the many press clippings that appeared throughout the world.

San Francisco World Spirit 2021

BRAND OVERVIEW

Herman Jansen is a seventh-generation, family-owned distillery located in Schiedam, Netherlands. Established in 1777, the family has built a business based on honesty, quality craftsmanship, and an open approach to collaborations. Successive generations possess innovative characteristics leading to the honorable classification of World Class Distillery since 2012 by the WSA Austria.

Due to Genever laws, Herman Jansen has two distillers onsite; one solely for Genever named Branderij De Tweelingh. The distilleries operate under the supervision of Master Distiller Ad van der Lee, two product developers, and three beverage makers with over two hundred years of experience.

In 1902, the 4th generation of Herman Jansen initiated the Schiedam malt spirit regulations to protect the **100% malt spirit** style. The municipality seal of Schiedam represents a certificate of authenticity with the guarantee the distilled product is made of malt spirit in accordance with regulated methods. Currently, the 6th generation of Herman Jansen is working to bring these regulations into the future, adjusted to the new standards, techniques, and environmental values. In 1987, Notaris was created and stands as one of three Genevers to carry this municipal seal of Schiedam today.

Notaris 3 yrs is aged in oak barrels for at least three years up to 9 years. During these years Notaris has been allowed to mature calmly, which lends Notaris 3yrs its unparalleled flavor and its unique aroma.

IZARRA JAUNE LIQUEUR

Pagès Vedrenne

95 POINTS, *Wine Enthusiast* 2024

BRAND OVERVIEW

The word “liqueur” comes from the Latin word “Liquifacere”, meaning “to make liquid”. In the late 1800’s and early 1900’s, herbs, spices, and fruit were chosen essentially for their medicinal purposes. Such concoctions were first labeled as elixirs, balms, crèmes, or oils and sold in markets or by roving merchants. The concoctions were not initially produced for consumers’ drinking pleasure, but rather to cure illnesses. Over the centuries, the elixirs were sweetened and prepared in a way that made them more palatable. Upon becoming more enjoyable, these elixirs set the premise for the world of liqueurs.

In 1906 Joseph Grattau gathered many years of research to create Izarra, which became anchored in the Basque country and incorporated as part of its culture.

Izarra Jaune Liqueur uses a proprietary blend of botanicals, which are first distilled in a copper still. Only the heart of this simple spirit is retained, then blended with a matured mixture of walnut husk and prunes in neutral pure spirit. Armagnac is then added to the final blend with a touch of local, Basque honey.

IZARRA TRANSLATES TO “STAR” IN BASQUE

PRODUCT OVERVIEW

TASTING NOTES

- Rich, vegetal nose with cinnamon and coriander scent
- Spicy and vegetal notes of anise and lemon, combined with honey
- Subtle woody character from a period of oak barrel aging

SERVING RECOMMENDATIONS

- Izarra shines at any preference from neat to on ice or kept in the freezer
- Makes a lovely tonic by replacing gin
- Works well as a base for a sour

NOTE: Does contain walnuts and almonds

COLD BREWED COFFEE LIQUEUR WITH NZ VODKA & ESPRESSO CUP

Jumping Goat

GOLD,
Bartender Spirits Awards 2022

Silver - Best of Category, Excellence in Packaging
American Distilling Institute 2022

BRAND OVERVIEW

Jumping Goat is a cold brewed coffee liqueur made using the finest quality, batch roasted coffee beans. Sugar and spices and the purest of New Zealand mineral water give the final product a smooth taste.

Very real and freshly ground coffee is upfront on the palette with a hint of chocolate. Unlike traditional coffee flavored liqueurs, the coffee infusion lingers, whilst the higher ABV warms the cockles like a good spirit should.

Jumping Goat Cold Brewed Coffee Liqueur with New Zealand Vodka uses a pure New Zealand whey vodka that provides a pleasant nutty sweetness as a counterbalance to the bold bitterness. Proofed to 33% ABV, this liqueur proves extremely versatile and provides similar awakening effects that you come to expect from a quality coffee liqueur.

Jumping Goat Cold Brewed Coffee Liqueur is best served with creamy or nutty counterparts. Carajillo's and Espresso Martinis are the ideal cocktails to display this elegant liqueur.

JUMPING GOATS ... LITERALLY

Jumping Goat is named after the goats herded by Kaldi in Ethiopia and their mystical energy gained from coffee berries.

PRODUCT OVERVIEW

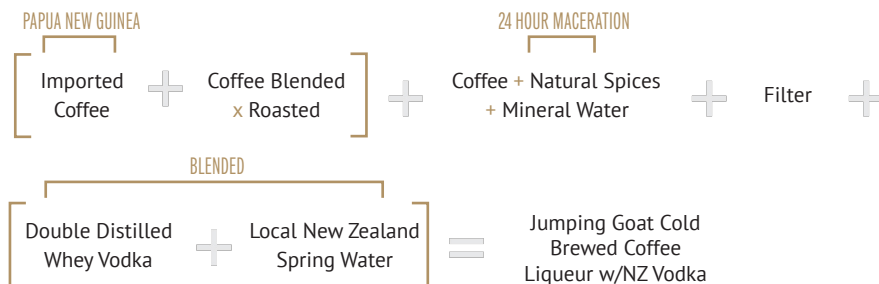

TASTING NOTES

- Bittersweet and nutty
- Hints of cinnamon and allspice give an earthy taste
- Light, yet round body

BRAND OVERVIEW

THE DISCOVERY

In 1998, George Rowley discovered absinthe while living in the Czech Republic. At the time, absinthe was a near forgotten relic and was only available in a few Bohemian bars.

Inspired by his experience, George and his company Bohemia Beer House Ltd (now BBH Spirits) took on the task of setting the legal precedent for absinthe, opening the international absinthe market today.

After soon discovering the UK never imposed a ban on absinthe, working alongside Trading Standards, George was able to secure permission to import due to the creation of a document called EU Council Directive 88/388/EEC. Creating this watershed document set the legal precedent for all future absinthe in Europe and the international market which now includes the US.

George Rowley held his UK launch in London on November 1998, the product being a modern Czech absinthe, absinthe spelled without the 'e', and introducing to the market the now popular modern 'sugar and burn' ritual.

In May 1999, the campaign to source a genuine pre-ban absinthe and restart distilling in France began when George contacted Marie-Claude Delahaye, world-renowned expert and historian on the category.

THE RESURRECTION

While reviewing the terms of the 1915 French ban, it was discovered that the French had prohibited the selling of absinthe in France, but not the distillation of it.

This would signal the rebirth of traditional French absinthe, distilled with Grand Wormwood (*Artemisia absinthium*). All this pioneering work was carried out by George and Marie-Claude at the Paris distillery, leading up to the introduction of the first traditionally distilled absinthe in France, La Fée Absinthe Parisienne.

After a year of investigation, research and development, the very first order of La Fée Absinthe Parisienne was placed on May 1, 2000.

The iconic eye motif has made La Fée the benchmark brand within the surging absinthe category.

Inspired by his experience, George and his company Bohemia Beer House Ltd (now BBH Spirits) took on the task of setting the legal precedent for absinthe, opening the international absinthe market today.

After soon discovering the UK never imposed a ban on absinthe, working alongside Trading Standards, George was able to secure permission to import due to the creation of a document called EU Council Directive 88/388/EEC. Creating this watershed document set the legal precedent for all future absinthe in Europe and the international market which now includes the US.

Rowley held his UK launch in London on November 1998, the product being a modern Czech absinthe, absinthe spelled without the 'e', and introducing to the market the now popular modern 'sugar and burn' ritual.

In May 1999, the campaign to source a genuine pre-ban absinthe and restart distilling in France began when George contacted Marie-Claude Delahaye, world-renowned expert and historian on the category.

THE RESURRECTION

While reviewing the terms of the 1915 French ban, it was discovered that the French had prohibited the selling of absinthe in France, but not the distillation of it.

This would signal the rebirth of traditional French absinthe, distilled with Grand Wormwood (Artemisia absinthium). All this pioneering work was carried out by George and Marie-Claude at the Paris distillery, leading up to the introduction of the first traditionally distilled absinthe in France, La Fée Absinthe Parisienne.

After a year of investigation, research and development, the very first order of La Fée Absinthe Parisienne was placed on May 1, 2000.

The iconic eye motif has made La Fée the benchmark brand within the surging absinthe category.

La Fée Absinthe Parisienne is the **first** traditional absinthe distilled in France since the 1915 ban

Lind & Lime is a London Dry style Scottish gin produced by The Lind & Lime Gin Distillery in Leith, Edinburgh. James Lind, a Surgeons' Mate in the Royal Navy in 1738, is coined with the first clinical trial ever recorded to cure scurvy. James recorded in his 1753 book "A treatise of the Scurvy" that men saw the most improvement when eating citrus fruits, such as limes.

By the end of the 18th century, the Royal Navy began supplying their ships with limes and citrus fruit to improve sailors' health. The gin was named after James Lind, as well as various nautical references displayed throughout packaging to commemorate the Surgeons' Mate.

Using a 500 Liter Genio Still allows them to precisely control the temperature and speed of the distillations. The watchword in the creation of Lind & Lime was "Balance" allowing for a gin curated with a culmination of each flavor without a single dominant characteristic. The production of each batch takes approximately 4 days.

SUSTAINABILITY & GREEN EFFORTS

Lind & Lime makes a concerted effort to help protect the environment and reduce carbon footprints.

- Distilled with 100% green electricity
- Produced with 100% organic ingredients
- Packaged with 100% plastic free materials

THE BOTTLE

The classic Lind & Lime glass bottle is meant to pay tribute to the historic local industry. Sand and kelp seaweed, which are the two main raw materials necessary for creating these glass bottles, were very abundant locally in Leith in the 18th and 19th centuries.

“We set out to create the very definition of what a London Dry Gin should be; to do something very simple, but do it to perfection.”

NAGA MALACCA INDONESIAN SPICED RUM

Naga Asian Rums

90 Points, Wine Enthusiast 2024

BRAND OVERVIEW

Naga is a mythical creature found in Buddhism and Hinduism across various Southeast Asian cultures. It is believed to be a semi divine, half human and half serpent being and to have either a human or dragon head. The figure of Naga is associated with water and fertility, the Naga can be protective, nurturing, and creative.

The Nagas are one of the cultural and mythological links that unite the immense territory that stretches from the Bay of Bengal to the Java Sea, from the Indian Ocean to the Pacific Ocean.

Indonesia is the motherland of sugarcane and the largest producer of spices in the world. So creating a spicy Naga rum was a matter of course. It was named Malacca after the port in Malaysia, from which ships laden with Asian fruits and spices departed for Europe.

Naga Malacca Indonesian Spiced Rum is noted with kumquat bark, the flesh of Indonesian jambu (java apples), citronella and cinnamon are used to give the Indonesian Batavia Arrack rum citrusy aromas and a final freshness.

The Nagas are one of the cultural and mythological links that unite the immense territory that stretches from the Bay of Bengal to the Java Sea, from the Indian Ocean to the Pacific Ocean.

Thailand is known as the “Land of Smiles” and is a blend of rich culture, exquisite cuisine, and legendary hospitality. With Thailand also being the second biggest producer of sugar cane globally, it begs the question of what is done with the incredible volume of molasses. It is turned into delicious rums, such as Naga Asian Rum Siam 10 Year.

Rich in flavors on candied fruit, vanilla and tobacco, Naga Asian Rum Siam Edition 10 Year is a luxurious sipper. Pair with a nice cigar or use a base for tiki drinks, this is a rum with a significant place on the back bar.

NISMES-DELCLOU

NISMES-DELCLOU ARMAGNAC VINTAGES

Nismes-Delclou

Living Heritage Company -
Awarded by the French State in 2016

Nismes-Delclou is a family business that has been handed down for six generations, starting in the 17th century. Pierre Nismes, a war hero, and governor of Paris started the House of Armagnac in the beginning of the 19th century in Gascony. When Pierre married his wife Elisabeth Delclou, she insisted her name be incorporated, thus giving life to Nismes-Delclou. Today the historic Armagnacs are crafted by Florence Castarède, who is the descendant of a cousin of Pierre Nismes.

The oldest French brandy, Armagnac, is distilled from white grape varietals from the Gascony region. The Nismes-Delclou Armagnacs are crafted from Folle Blanche, Ugni Blanc, Colombard, and Baco grown in the Bas Armagnac's highly rated terroir, where vines grow on poor and acidic clay loam soils with pockets of iron, giving birth to light, fruity, delicate, and reputed eaux-de-vie. Per the rules of AOC, vintage Armagnacs are required to

have a minimum age of 10 years. The vintages are a result of each specific years' grape harvest. Uniquely, Nismes-Delclou "over-ages" their bottles, where they rest in casks for up to 50-60 years. Once the cellar master has decided that the balance has been reached, it is transferred to Dame-Jeanne glass containers, and only bottled on demand. The bottle dates are printed on the back label, which allows consumers to know the exact age of each of their vintages. Since all vintages rest in casks until they are ordered and bottled, their taste profiles continue evolving throughout the years. The vintages make for a great gift for any special occasion such as a birthday or anniversary.

The Nismes-Delclou House owns old and rare vintages dating back as far as 1893. A collection of bottles is stored in Berry Brothers' shops in the terminals of the Heathrow Airport in London as well as St. James Street's famous shop in London.

Founded in 1832, Nismes-Delclou Armagnac is the oldest trading House of Armagnac

✎ SERVING RECOMMENDATIONS

- Neat
- Serve with classic Gascon dishes, such as foie gras, game, or desserts
- Young Armagnacs are a perfect base for cocktails
- Pairs well with meat, game, charcuterie, cheese, pastries and chocolate

★ PRODUCTION PROCESS

(1) Ugni Blanc grape is ideal for distillation due to its high acidity and low alcohol wines, that after distillation produce fine eaux-de-vie of high quality.
 (2) Colombard grapes are valued in the vinification of the local C. tes de Gascogne wines, its distillation is rarer. Its fruity and spicy aromas are very appreciated in blends.
 (3) Natural vinification occurs without oenological products such as sulphur dioxide. There is no fining or filtration prior to distillation (distilled on the lees).
 (4) A continuous Armagnac alembic is a pure copper still that was patented in 1818 by a stone maker in Auch, Sieur Tuilli re, under the reign of ing Louis VIII. The still has been adapted, modified, and improved by the region's distillers. A Rowan Alembic Still is used alongside the traditional alembic.
 (5) The eaux-de-vie casks are kept in a unique 16th century cellar, carefully monitored, aerated, and blended. Up to 50-60 years, then transferred into Dame Jeanne glass containers. First aged in new barrels for a few months, then transferred to exhausted barrels

NOYAU DE POISSY BLANC SCEAU DE SAINT-LOUIS LIQUEUR

Noyau de Poissy

The Seine Valley that runs through Poissy, France is renowned for its sunny slopes adorned with apricots, sloe berries and cherry trees. The kernels, or noyau, are highly aromatic which make them ideal for maceration with fruit brandies. The people of Poissy, a commune of Île-de-France outside Paris, have been producing a liqueur called ratafia from macerated fruit pits and brandy since the early 1600's.

Story has it, an innkeeper named Monsieur Suzanne began to serve this apricot kernel liqueur to his patrons, many of whom were buyers and sellers from the local cattle market. It became so popular that other inns in the town began serving the liqueur. In response to its popularity, the Noyau de Poissy distillery began producing their apricot kernel liqueur in 1698 which they named Noyau De Poissy Blanc Sceau de Saint-Louis Liqueur.

CURRACH SINGLE MALT IRISH WHISKEY - ATLANTIC KOMBU SEAWEED CASK

Origin Spirits

ABOUT THE COMPANY

Origin Spirits is an Irish based spirits producer from Kilsheelan, Tipperary, Ireland. Renowned for its Avant Garde approach to producing spirits, Origin Spirits has created a new avenue for Irish Whiskey fanatics that binds them to history as they drink. Currach Single Malt Irish Whiskey – Atlantic Kombu Seaweed Cask takes the tradition of seaweed farming in West Ireland and melds it to triple distilled single malt Irish whiskey in a way that brings Irish traditions via a modern technique.

Much like the boats in which it takes its namesake, this whiskey is an adventure into unknown territories. Currach Single Malt Irish Whiskey is a true innovation in the whiskey world, and the first to be finished in seaweed charred casks – the first expression created using Irish

Atlantic Kombu Kelp Seaweed. Using kombu seaweed as kindling, smoke from the fire seasons ex-bourbon casks for the 3–4-year whiskey to finish. The bottled whiskey takes on not only the pleasing maritime scent of the Atlantic but adds a noticeable umami finish.

IRISH SEAWEED

Sustainably hand harvested off the wild Atlantic coast of Co. Clare, the Kombu seaweed is 100% naturally grown and organically certified. Fourth Generation Seaweed Harvesters, The Talty Family, ensure only the finest seaweeds are selected for Currach Single Malt Whiskey. Mildly salty and subtly sweet, Kombu is rich in umami, the fifth human taste.

MYRRHA BLANCO VERMUT

Padró & Co.

GOLD – Best of Class 2021, American Distilling Institute

BRAND OVERVIEW

Delicious tradition. Distinctly authentic. Seasoned Style. Myrrha by Padró & Co. consists of exquisitely balanced Spanish vermouths, made following the traditional process, at the Padró family winery to the south of Barcelona, Spain.

What's behind the name? Myrrha is Spanish for myrrh, a natural resin used for centuries as a perfume, incense and medicine but also used in vermouth-making. Myrrh was highly prized by the ancients, who believed that a pleasant aroma not only beneficially affects the senses and mood but also heals the soul and body, and therefore kept vessels of myrrh in their temples for healing and protection. So, the name and label of this line, their vermouth brand, reflect the tradition and special character of their

vermouths as well as the importance of the natural herb infusions used.

Around 10 years ago, the Padró family had been making craft vermouth for well over a century and delivering it in bulk form (originally in barrels) to their many customers. Those same customers asked the family to put the vermouth into a bottle for them and so in 2014, Myrrha Rojo red came into being, followed shortly afterwards by Myrrha Blanco white and Myrrha Rojo Reserva, aged for 18+ months and a progression of the less-aged red. Myrrha by Padró & Co. is the Padró family's very first vermouth brand. Shortly after the vermouth was first bottled, it began to receive accolades.

BRAND OVERVIEW

Padró I Familia, SL is owned and operated by the 5th generation of the Padró family. The family has been producing vermouth in Spain dating back to 1886 in the village of Brafim, Tarragona.

Through the popularity waves of vermouth, Padró has managed to survive by producing their own wine. Today, they have approx. one hundred acres of 25-year-old vines.

Historically, vermouth was delivered in barrels until recently when the first of their bottled brands was

born. Their premium line, Padró & Co., launched in 2016, is a fusion of herbs, spices and flowers together with their wine to create an intense and unique experience.

The Padró family believes vermouth making is not an exact science. They utilize the natural elements for their initial resting of the base wine, then the product is continuously tasted throughout the process. Like a good chef, the product is finished when it tastes just right.

VERVEINE DU VELAY JAUNE (YELLOW) LIQUEUR

Pagès

BRAND OVERVIEW

Verveine du Velay liqueur is emblematic of herbal liqueurs, founded in 1859 by herbalist Joseph Rumillet-Charretier in Le-Puy-en-Velay; set in the Auvergne-Rhône Alpes region of south-central France. The elixir is a harmonious union of local verbena, plants, spices, and aromatic herbs. The lemon verbena is planted in June, harvested before the first winter chill, dried, and hand stripped to preserve the aromas. From start to finish, the process takes just over 18 months to create the beloved liqueur.

Verveine du Velay Jaune is a high quality expression of the meticulous selection of plants. The color and variance comes from the particular blend of spices and aromatic herbs plus the addition of honey, giving a brilliant yellow color.

ORGANIC & SUSTAINABILITY

Beginning in 2021, the distillery has been engaged in an organic farming planting process. The 2024 harvest will be 100% certified Organic Agriculture.

Post distillation, the plant residues are collected and returned to the garden to be used as compost.

There is a high focus on limiting energy consumption and therefore the stills only operate in spring and fall – April to June and September to November.

PRODUCT OVERVIEW

TASTING NOTES

- Nose: Floral Bouquet and fresh honey
 - Palate: Warm, deep flavors, soft on the palate
- Slight floral flavors mixed with dried plants • Notes of Amber; woody yet elegant and sweet spices

SERVING RECOMMENDATIONS

- Traditionally served as a digestif, at room temperature
- Elegant in a cocktail with cognac and red vermouth
- Compliments rye whiskey
- Pairs well with aged spirits

CRÈME DE BANANE LIQUEUR

Pairidaēza [pair·ih·duh·ee·zuh]

96 Points, *Wine Enthusiast* 2024
95 Points - GOLD, *Beverage Testing Institute* 2023
GOLD, *New Orleans Spirit* 2023

BRAND OVERVIEW

Pairidaēza translates to “an enclosed garden” in Persian. This imagery embodies Pairidaēza’s ideology of creating your own paradise. Persian Gardens are said to evoke a sense of security behind walls filled with enchanted imagery. Throughout ancient cultures, the idea of a hidden sight gave way to legends of extravagance lost to time. Bringing the past to life became a priority, as was the ability to fashion one’s own version of a local utopia. The idea of connecting past levels of luxury unknown to our current expectations have become more in fashion with ever changing modernity.

Crème de Banane uses all-natural plantains in the distilling process, rather than dessert bananas, to give this crème a more refreshing quality, instead of sweet and candy-like. The Pairidaēza distilling process uses burnt sugar to provide the aromas of nuttiness and caramel to add layers of complexity and nuance to the drinker.

Crème de Banane is the liqueur to elevate your tiki cocktails and inject a richness to any cocktail. Pair this liqueur with baking spices such as cinnamon or cardamom, or bring complexity to a daiquiri. This versatile liqueur can make itself known in any style cocktail. Create a tropical paradise on command, anytime with Crème de Banane.

WHAT’S YOUR PARADISE?

Versatility and experience can blend past with future to provide a clearer picture to ones personal paradise

PRODUCT OVERVIEW

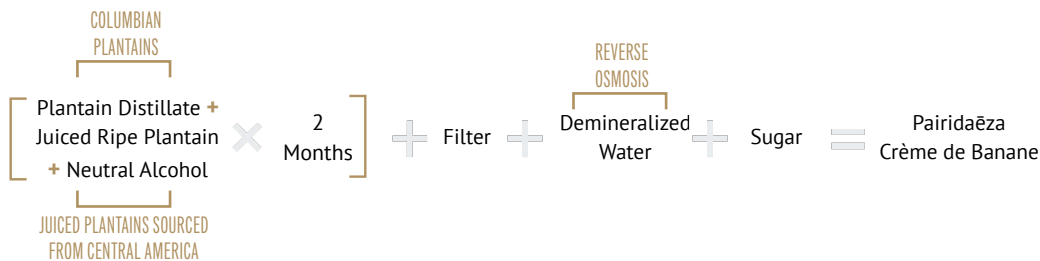

TASTING NOTES

- Hints of cinnamon and caramel on the nose
- Flavor of ripe plantains
- Rich creaminess accompanied by baking spice

SERVING RECOMMENDATIONS

- Use as modifier in shaken cocktails
- Pairs with cognac, bourbon, coffee liqueur, and especially rum
- Effective partner to amari such as Fernet or Averna

Persian Gardens are said to evoke a sense of security behind walls filled with enchanted imagery. Throughout ancient cultures, the idea of a hidden paradise in plain sight gave way to legends of extravagance lost to time. Bringing the past to life became a priority, as was the ability to fashion one’s own version of a local utopia. The idea of connecting past levels of luxury unknown to our current expectations have become more in fashion with ever changing modernity.

Pairidaēza has taken lost recipes for commonly used liqueurs popular to past eras. A contemporary approach updating past forms to

fit the elegance of the modern cocktail needs. The ever-changing palate of modern society has left behind old recipes from Harry Craddock of The Savoy, which were heavy on Crème de Cacao and Menthe as newer bartenders found infusions more appropriate. This all natural liqueur rescues the decadence of a forgotten modifier.

Pairidaēza’s all natural Crème de Cacao is created by blending burnt sugar, all natural French cocoa, neutral base alcohol, and infusing vanilla into the mix. The bittersweet, spice-filled liqueur is the perfect addition for those seeking a luxurious, silky mouthfeel. Crème de cacao has been classically used with creams and strong mint flavors in drinks like The Grasshopper, but paired with cognac, you will have an elegant, blissful nirvana in a glass.

WHAT’S YOUR PARADISE?

BRAND OVERVIEW

Pairidaēza translates to “an enclosed garden” in Persian. This imagery embodies Pairidaēza’s ideology of creating your own paradise. Persian Gardens are said to evoke a sense of security behind walls filled with enchanted imagery. Throughout ancient cultures, the idea of a hidden paradise in plain sight gave way to legends of extravagance lost to time. Bringing the past to life became a priority, as was the ability to fashion one’s own version of a local utopia. The idea of connecting past levels of luxury unknown to our current expectations has become more in fashion with ever-changing modernity.

Pairidaēza has taken lost recipes for commonly used liqueurs popular in past eras. A contemporary approach by updating past forms to fit the elegance of the modern cocktailing needs. The ever-changing palate of modern society has left behind old recipes

from Harry Craddock of *The Savoy*, which includes use of early forms of grapefruit elements in liqueurs, such as in Forbidden Fruit and Campari. Grapefruit was especially popular in liqueur form surrounding the Prohibition Era. This all natural liqueur rescues the decadence of a forgotten modifier.

Pairidaēza Pamplemousse Pink Grapefruit Liqueur perfectly captures the bitter and slightly sweet essence of the fruit. Pink grapefruit is a more complex and acidic variety of grapefruit versus its red counterpart, imparting more flavor and additional sour and bitter elements. There is a balanced sweetness in the liqueur that lends well to cocktail making and is intended to be that perfect addition to your cocktail in paradise.

The idea of connecting past levels of luxury unknown to our current expectations have become more in fashion with ever changing modernity.

Since its arrival into culinary and medicinal lexicon, mint has been a multicultural ingredient. Until lately, Creme de Menthe was left in the Prohibition era, only to pop up in drinks like the Grasshopper. No longer. Pairidaēza created a nuanced twist on a classic liqueur. “Blanche,” meaning uncolored, this liqueur is all natural and invigorating on the tongue. This modifier is perfect for adding depth not only in flavor, the cocktail will physically be different in mouthfeel.

What better to take you to paradise than the feeling of rejuvenation, free from stress and all ailments. White mint and hints of vanilla result in a chic and graceful addition to many cocktails featuring aged spirits and amaro; fitting the ideals that Pairidaēza can come in the form of a galvanizing minty rush.

MARASCA COCKTAIL CHERRIES

Pairidaēza [pair·ih·duh·ee·zuh]

BRAND OVERVIEW

Pairidaēza translates to “an enclosed garden” in Persian. This imagery embodies Pairidaēza’s ideology of creating your own paradise. Persian Gardens are said to evoke a sense of security behind walls filled with enchanted imagery. The Marasca cherries provide a sweet enrichment to any cocktail. These candied cherries are sourced strictly from European farms that have high quality standards while also complying with non-GMO project verified standards.

Throughout ancient cultures, the idea of a hidden paradise in plain sight gave way to legends of extravagance lost to time. Bringing the past to life became a priority, as was the ability to fashion

one’s own version of a local utopia. The idea of connecting past levels of luxury unknown to our current expectations has become more in fashion with ever-changing modernity.

Pairidaēza cherries are carefully crafted using only the best Marasca cherries, with a size of 30mm or greater. The candied cherries are cooked and coated using a proprietary method to maintain a nice firm exterior followed with a soft, delicate inside. This method preserves the texture of the fruit’s skin, providing resistance to cracking, thus making this the perfect cocktail cherry.

Products based on the ideology of lush imagery, a step back-in-time, propelling into one’s aura; intended to be that perfect addition to your cocktail in paradise

QORQ Mezcal was founded in 2012 after the owner Melanie Symonds, ran a successful pop up Mezcal bar in East London and recognized a gap in the market for an affordable yet traditionally made mezcal. During a research trip to Oaxaca in 2011 Melanie meet the Mendez family who have been producing mezcal for 4 generations.

The Mendez family make QORQ at their family Palenque. The family have a strong connection with the local community and since partnering with QORQ, have been able to start several sustainability projects within the municipality. They are one of the few producers in the area to build vinasas disposal units which neutralizes the acidic run off from the mezcal production, before its disposed of. To heat their roasting pit they only use non endangered wood species and focus on buying wood from government certified sustainable sellers. QORQ is

committed to supporting the Mendez family's social responsibility towards the local people and environment, taking conservation steps whenever possible.

QORQ's aim has always been to offer high quality traditional Mezcal, made without additives, chemicals or preservatives.

QORQ is a single palenque Mezcal, batches are always made to order from one producer and never blended from multiple sources.

QORQ Mezcal Destilado con Café is Espadin Mezcal made to the family recipe. After 2 distillations the mezcal is macerated for 2 weeks with home roasted coffee beans then distilled a third time. This type of mezcal is locally called "Pechuga" style and is made for special occasions.

BRAND OVERVIEW

Polugar is known as the legendary Russian bread wine, the noble father of vodka.

Pre-single column still, Russia's version of vodka was similar to whisky; the smell and flavor reminiscent of freshly baked bread and was known as bread wine.

In 1895 Tsar Alexander III decreed to have all pot stills in Russia broken down. Distillation processes were restricted to government licensed and taxed column stills. Thus established the less nuanced spirit we know as vodka today.

The Rodionov family spearheaded a movement to restore the traditional grain spirits. Boris Rodionov, a renowned vodka historian, discovered the original recipe for the national bread wine spirit. With legislation forbidding the Polugar style of grain

distillation in Russia, the Rodionov family restored an old distillery tucked away in a forest in Poland.

HISTORIC PRODUCTION

The Rodionov family meticulously reproduced copper pot stills from 18th century drawings. Each Polugar selection is produced in accordance with authentic recipes of Russian aristocracy in the 1700s. The bottle is designed after Queen Elizabeth's personal snuff-bottle, circa 1745, that is on exhibit at the Russian National Museum.

POLUGAR, WHAT DOES IT MEAN?

The word Polugar means half-burned.

Before the advent of alcohol meters, strength and quality were achieved by boiling two portions of the distillate together into one. The resulting alcohol content was 38.5% alc/vol.

BRAND OVERVIEW

Ron Colón was birthed out of an appreciation for the rich history, soil, and culture of El Salvador. Since the 1920s, Ingenio La Cabana has been growing and processing sugar cane near the Mayan ruins of Cihuatán, north of San Salvador. In 2004, Cabana built the distillery Licorera Cihuatán, which is overseen by Master Distiller and Blender Gabriella Ayala, and is the source of the 6 Year Rum used in Ron Colón products. At the distillery, El Salvadoran sugar cane is run through a century-old mill as the starting point for their portfolio of rums.

One of Ron Colón's goals is to bridge worlds. With their rum portfolio they connected rum and coffee, bringing together the two finest raw ingredients exported from

El Salvador. They continue to innovate, bridging industries and categories to create new flavor experiences with each of their products.

The rums that are chosen in the Rum 81 Proof blend to create a complex flavor palate. By combining column-distilled and pot-distilled rums, the overall flavor offers contrasting characteristics that interact to create something quite special. The addition of Jamaican pot-distilled rums brings an earthiness and warm funk to the liquid. The flagship rum is a fruit-forward delicate style with a light, dry finish.

introduces Salvadorian grown bourbon variety of arabica coffee beans to the mix. Working with the Jags Head Coffee team, whole roasted beans are cold infused in the rum for 48 hours, imparting fruity flavors with a subtle richness to the spirit that still allows the rum to shine through.

Jags Head Coffee has been grown by the same family for the past 150 years. Their coffee plantations sit on the side of the Santa Ana Volcano, in the Apaneca-Ilamatepec mountains, home to El Salvador's first DOC for coffee. Jags Head grows the bourbon variety of coffee at their El Cipres farm 5,577 feet above sea level, surrounded by groves of cherry trees. RUMRYE 50/50 is the next adventure in their portfolio.

During the era of British rule in North America, rum was the most popular spirit in the colonies. But, after the American Revolution, heavy taxes on molasses caused the decline in the rum industry and drove drinkers to locally distilled whiskey. Despite the cold winters and poor soils, rye grew well from Northern Virginia to upstate New York. By the turn of the 19th Century there were thousands of farm distillers in Pennsylvania, Maryland and the surrounding states making rye whiskey. Ron Colón blends these two worlds into RUMRYE.

RUMRYE 50/50 is a split between Ron Colón High Proof Rum and 2017 American Straight 100% Rye Whiskey. This blend showcases the best of both spirits that encompasses the rich, bright, and distinctive spice of a classic rye balanced with the natural sweetness of rum.

BRAND OVERVIEW

Ron Colón was birthed out of an appreciation for the rich history, soil, and culture of El Salvador. Since the 1920s Ingenio La Cabana has been growing and processing sugar cane near the Mayan ruins of Cihuatán, north of San Salvador. In 2004, Cabana built the distillery Licorera Cihuatán, which is overseen by Master Distiller and Blender Gabriella Ayala, and is the source of the Salvadorian rum used in Ron Colón products. At the distillery, El Salvadoran sugar cane is run through a century old mill as the starting point for their portfolio of rums.

One of Ron Colón's goals is to bridge worlds. Rumzcal was created with the intention of bridging categories, similar to RCS RumRye, but using Ron Colón Dark Rum 81 pf and Maguay Espadín Mezcal. A fourth-generation

family business run by mother and son, they produce the finest Maguay Espadín from Ozaza, using artisanal production methods for more than six decades.

Their methods includes harvesting the piñas by hand with rudimentary tools, such as machetes, axes, and handmade mallets, and cooking the piñas in a stone-lined conical-shaped floor oven covered with dirt, which was built in 1963. The cooked piñas are then ground using a Chilean horse-drawn mill. The ground juices and fibers are poured into wooden vats, allowing local yeast to ferment the wort, and then distillation occurs in copper pots.

BRAND OVERVIEW

Ron Colón was birthed out of an appreciation for the rich history, soil, and culture of El Salvador. Since the 1920s Ingenio La Cabana has been growing and processing sugar cane near the Mayan ruins of Cihuatán, north of San Salvador. In 2004, Cabana built the distillery Licorera Cihuatán, which is overseen by Master Distiller and Blender Gabriella Ayala, and is the source of the 6 Year Rum used in Ron Colón products. At the distillery, El Salvadoran sugar cane is run through a century old mill as the starting point for their portfolio of rums.

One of Ron Colón's goals is to bridge worlds. With their rum portfolio they connected rum and coffee, bringing

together the two finest raw ingredients exported from El Salvador. They continue to innovate, bridging industries and categories to create new flavor experiences with each of their products.

Inspiration for Red Banana Oleo came from the red banana trees growing on the Jags Head Coffee Farms in El Salvador. The bananas are soft and sweet when ripe, and some say they have a raspberry sweetness while others consider it to be a cross between a yellow banana and a plantain. Eric van Beeck and Danil Nevsky created the perfect banana oleo syrup, matched with RC Rum 81 Proof, to create the Red Banana Oleo.

HERBAL LIQUEUR

Schwartzhog

93 Points, Wine Enthusiast 2023

BRAND OVERVIEW

The Hardenberg name stands for a long tradition in the production of spirits with a legacy stretching back more than 900 years, as well as a significant place in German history. An origin story that every Hardenberger knows today. The company is now lead by the tenth generation of von Hardenbergs.

In 1330 AD, when hostiles threatened to storm the castle, a boar warned the sleeping castle lords, saving them from a horrible fate. In gratitude, the boar's head was placed on the family crest. It has remained on the coat of arms since 1330, and it has also been a seal of quality in the company logo since the founding of the Hardenberg grain distillery in 1700.

The Hardenberg Distillery has been championing tradition-infused innovation based on experience, expertise, craftsmanship and core values since

2019. Splicing traditional production methods with the latest technologies and refinement techniques, their master distillers craft complex, well-balanced innovations that celebrate authentic facets of flavor.

The world of Schwartzhog is a world of ancient woodland and fragrant, earthy botanicals. Of timeless distillation secrets. And it is the realm of the king of the forest, the black boar.

Schwartzhog Premium Herbal Liqueur has a remarkably mild taste, subtle citrus notes, and moderate sweetness. The distinctive flavor comes from oranges, bitter oranges, citrus, and sweet spice aromas and is carefully macerated from bitter clover, gentian, wormwood, galangal ginger, lemongrass, and star anise, making it an excellent digestive.

BLUE CURAÇAO LIQUEUR

Senior & Co.

Kosher-certified

It was common in the 19th century for pharmacists to create botanical tinctures and tonics to aid digestion or cure other maladies. Likewise, Curaçao business partners Haim Mendes Chumaceiro and Edgar Senior, operated a drugstore called Botika Excelsior where they sold Senior's Curaçao Tonic based on a family recipe. In 1896, Senior and Chumaceiro formed Senior & Co. and changed the name of their tonic to Senior's Curaçao Liqueur, to highlight its sweet profile.

When Chumaceiro died, the recipe for the liqueur went to his widow and she continued to make modest quantities of the curaçao at her home. In 1945, Senior & Co. purchased the curaçao recipe from Chumaceiro's widow producing it on a commercial scale. Today, the descendants of Edgar Senior and Mendes Chumaceiro are still partial owners of Senior & Co. and their distillery, in the historic Landhuis Chobolobo mansion, welcomes around 140,000 visitors a year.

Senior & Co. offers premium, authentic liqueurs crafted with the finest ingredients, according to the original Senior recipe, distilled in a copper still from 1896. A Genuine Curaçao is made with the dried, bitter peels of the Laraha, known as the Golden Orange of Curaçao. That can only grow on the Caribbean Island of Curaçao, known for its colorful sights, joyful character, and tropical blue sea. Senior & Co. is proud to produce the Genuine Curaçao from Curaçao.

THE ORIGINAL CURAÇAO LIQUEUR

Made from Laraha Oranges from the Island of Curaçao

PRODUCT OVERVIEW

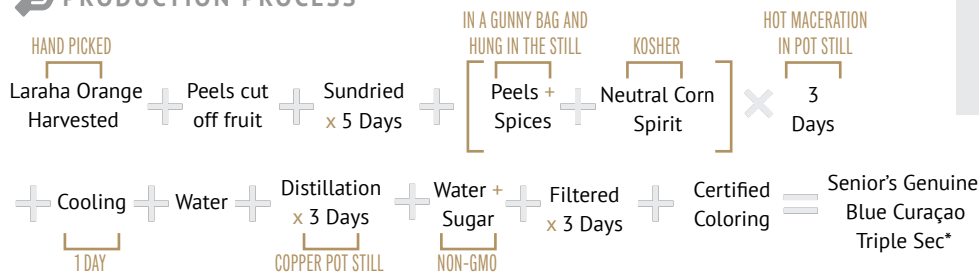

TASTING NOTES

- Viscous mouthfeel, with almost no alcohol
- At the front end you get luscious orange blossom
- Zesty, oily orange mid palate
- Spice notes of clove and pepper perfectly balance the fruit
- Long finish

SERVING RECOMMENDATIONS

- On ice
- Use in any recipe calling for Orange Liqueur, Curaçao, or Triple Sec

PRODUCTION PROCESS

Rademon Estate is the first craft gin and whiskey distillery in Ireland, founded by Fiona and David Boyd-Armstrong. Fiona found her inspiration from a passion to rekindle the lost art of distilling in Northern Ireland. The Shortcross brand takes its name from the local village, Crossgar. In Gaelic or Irish, Crossgar means the 'Short Cross', they are proud to have the village name on each and every bottle produced. Each bottle is hand crafted and dipped in wax, showing each bottle is as unique as its new founders.

Inspired by the local surroundings at the estate, Short Cross Gin is created by foraging elderflower, elderberry, wild clover, and apples to create a gin that is unique and representative of Northern Irelands' lush green landscape. The botanicals combine to create a juniper

forward gin with uplifting floral notes and smooth, sweet flavors with a long-lasting finish. Shortcross Gin was launched in 2014 to critical acclaim and has been awarded over 21 awards for its unique, smooth taste and aroma.

Shortcross Gin is a gin that features softer, sweet floral and citrus flavors. The botanical base is described as having a distinctively Irish twist: elderflower, elderberry, wild clover, apples, juniper, citrus fruits, coriander seeds, cinnamon, and cassia. A lingering finish is a unique feature to this gin, as the body is much larger than an average London Dry style gin. At 46%, Shortcross Gin can punch through various robust ingredients, such as vermouths and spirits like rye whiskey. Use in Collins variations, Martinis or simply with tonic water.

The Most Awarded Gin in Ireland

PRODUCT OVERVIEW

TASTING NOTES

- Notes from juniper and clover are layered with the lemony coriander spice
- Delicate; peppery yet leafy, angelica finish

The Irish whiskey journey began in 2015 when they distilled the first ShortCross whiskey on Ireland's smallest copper pot still. Each cask of ShortCross Irish Whiskey has been carefully crafted

and proudly distilled, matured, and bottled at the Rademon Estate Distillery, down to the water used in each batch, sustainably sourced from a well on the estate.

ShortCross Irish Poitín starts from a unique mash bill, using 100% Irish cereals: a trio of malted barley, malted wheat, and malted rye. Slowly distilled in their small copper still to create an Irish Poitín that is rich in flavor and uncompromisingly crafted. Why copper? The copper interacts with the spirit vapor as it passes through the still, removing harsh notes while giving the final spirit a fuller, more rounded flavor profile. A unique spirit that captivates connoisseurs.

CHANCER

Irish Whiskey Bonding Co.

The Irish Whiskey Bonding Co. is new, yet we can trace our origins back two hundred years to a time of Irish whiskey excellence. In the 19th and early 20th centuries, the Irish whiskey industry was very different to what it is today. Distilleries made unbranded spirits, selling the 'new make' whiskey to publicans, grocers and other retailers.

These 'Bonders' – so called because they held their whiskey 'in bond' without paying duty – then aged, blended and bottled it to sell to their customers. There were

Bonders in every town and city in Ireland, each with their own storage and blending methods, a practice that gave rise to regional variations of whiskey style and taste.

A super premium blend of five Irish whiskeys including Shortcross peated single malt Irish whiskey, triple & double distilled malt, alongside pot still and grain. Aged in ex-bourbon, sherry casks & virgin American oak. Non chill filtered, natural color.

MERCHANTS MALT SINGLE MALT IRISH WHISKEY 15 YO

Irish Whiskey Bonding Co.

The Irish Whiskey Bonding Co. is a newly developed line bringing forth expressions based on the Irish origins dated back two hundred years to a time of Irish whiskey excellence. In the 19th and early 20th centuries, the Irish whiskey industry was very different to what it is today. Distilleries made unbranded spirits, selling the 'new make' whiskey to pubs, grocers and other retailers.

These 'Bonders' – so called because they held their whiskey 'in bond' without paying duty – then aged, blended and bottled it to sell to their customers. There were Bonders

in every town and city in Ireland, each with their own storage and blending methods, a practice that gave rise to regional variations of whiskey style and taste.

Named in honor of the great Irish Whiskey Merchants & Bonders of Belfast. The Merchants Malt is a carefully selected and sourced 15-year-old triple distilled single malt Irish Whiskey from the north coast of Ireland, aged solely in bourbon barrels. An exceptional bottling that showcases Irish Whiskey at its finest. A limited quantity of this unique Irish whiskey will be available.

BLENDED BY A CRAFTSMAN. FLAVORED BY A CITY.

BRAND OVERVIEW

The Legendary Silkie Irish Whiskey is the first step in the journey into smoky Irish whiskey that Silkie Irish whiskey takes you on. Named from the mermaid (Silkie) legends of Donegal, the Legendary Silkie is the first step in their ambitious journey of bringing legitimate distilling to the Donegal Gaeltacht.

In reclaiming the distilling heritage of Donegal, the Legendary Silkies take you on a journey into smoky Irish whiskey.

The Legendary Silkie Irish Whiskey is a blend of the finest double and triple distilled malts, lightly

peated malt, and soft grain whiskey, sourced from the finest distilleries in Ireland. These whiskeys are then blended by Master Blender, James Daugherty, using Sliabh Liag's unique recipe. Although higher in ABV, the whiskey is exceptionally smooth with crisp green apple in the fore, with ripe red fruits, gentle smoke, and an oaky sweetness, which gives way to a long lingering finish of gently warming spice.

Silkie is non-chill filtered, allowing the soft, buttery mouthfeel to be evident, creating a character as rich as the mythical tales that inspired it.

DASYLIRION LEIOPHYLLUM

Clan Coyote

GOLD - Tequila Aficiando, 2021

BRAND OVERVIEW

Sotol Coyote is a social project that involves the true essence of the wild, pure and natural. Initially Clan Coyote set out to rescue a Mexican product; a direct reflection of the soil. Nowadays they are also in the pursuit of cultural and artistic promotion in our country, as well as the respect and admiration of their origins.

The story goes that there were three characters who survived the desert. These characters are: El Maestro Sotolero, the coyote, and the sotol. The three have coexisted in the same environment since the first memories we have of them.

Sotol is not an agave, it is a shrub of the liliaceae family, with long, fibrous, lanceolate, green leaves, known by experts as "Dasyllirion" and by locals as sereque or sotol. It grows wild mainly in the desert because it has the

particularity of surviving extreme temperature changes, from freezing winters to hot days.

Clan Coyote's handcrafted Sotol Coyote is equal parts art and science. Relying on centuries of experience, it is one of the few drinks in Mexico that retains its ancestral method of preparation. It is produced by Maestro Sotolero Gerardo Ruelas in Aldama, Chihuahua, and it is a meticulous, time-consuming process.

Every bottle of Sotol Coyote contains the distilled nectar of one hand harvested 34 year-old plant, on average, that provides a rich bouquet of unmatched flavor.

extreme temperature changes, from freezing winters to hot days.

Sotol Coyote created a limited expression, Vibora, using ingredients that for millions of years have prevailed in the face of the harsh extremes of the desert. Dasyliirion Leiophyllum (Desert Spoon) and rattlesnakes are featured in the distillation process to reflect the inimitable climate and culture of Chihuahua. Vibora means small poisonous snakes. The second distillation is done with snakes hung in the bell for a distinctive savory finish. Twice distilling refines the earthiness commonly found in sotol.

HVEN COFFEY COFFEE VODKA

Spirit of Hven Distillery

90 POINTS, Wine Enthusiast 2023

Spirit of Hven is a family-owned craft distillery situated on the beautiful island Hven in the strait of Öresund between Sweden and Denmark. This unique distillery uses both column stills and pot stills, to create its own spirits from only the best organic grains. Before each spirit is made the ingredients are carefully selected and analyzed by the distillery's own laboratory to ensure the highest quality. The final spirits are bottled and hand-waxed without any carbon- or chill-filtering, no color corrections, or additives.

Spirit of Hven distills its Coffey Coffee Vodka with a Continuous Coffey Still and then infused with coffee. The beans are a combination of light and medium roasted, arabica coffee grown in Ethiopia and Jamaica, and robusta beans from Brazil. During the second distillation, fresh beans are placed in the botanical basket and the vapors extract more flavor.

The Coffey still allows for continuous distillation that is faster and requires less energy for the same output compared to a traditional pot still. Coffey stills tend to produce a lighter spirit than pot stills leading most distillers to age the distillate to impart greater character.

AQUAVIT LANDSKRONA

Spirit of Hven Distillery

Created to commemorate a love of King Erik of Pommern, Landskrona Akvavit personalizes a a time in history where herbs healed the pains of sailors and Vikings. Spirit of Hven has a long history of creating spirits that pay homage to the roots of Scandinavian culture, with Akvavit being a significant contribution to its culture. Created using neutral grain vodka, aged in American White oak, aging mixed with a maceration of dill, caraway, fennel, wormwood, elder and lime creates a traditional flavor combined with modern experimentation. In more ancient times, these herbs were known to fight nightmares on the high seas, Landskrona definitely gives justice to this set of beliefs.

Slowly macerating the herbs of traditional akvavit separately in one barrel allows Spirit of Hven to create a delicately refined flavor. Aromas of forest meadows takes the drinker to warmer times, while the lingering finish of fennel and aniseed meet to combine with the spicy flavors of wormwood. The herbaceous flavors are rounded out with a subtle acidity and dryness that are long lasting on the palette.

Akvavit Landskrona is a complex spirit that will work with earthy flavors like ginger and lemon grass. Pair with a marinated salmon dish for an unique culinary experience.

SLOE GIN LOCAL HARVEST

Spirit of Hven Distillery

Hven is a beautiful green island in the strait of Öresund between Denmark and Sweden. It is only 5-mile in circumference with a population of 350 people.

After 8 years of planning, the distillery opened 2008 by Anja and Henric Molin. This is the third pot still distillery built in Sweden. It has since developed into a major player throughout Europe.

The island is host to the country's most fertile landscapes, providing Hven with exceptional raw ingredients. Only the best organic grains are selected from a few certified farmers.

All Spirit of Hven products are:

- Non-GMO
- Gluten Free
- Biodynamic
- Bottled at site without additives
- No chill filtration

To create this product with the most enticing character possible, the ingredients are distilled in proprietary small copper pot stills. Everything, including the hand bottling, is done on site.

Spirit of Hven Backafallsbyn Distillery also holds its own hotel, bar and restaurant, where the traditions and heritage of the products can be shared.

PRODUCT OVERVIEW

TASTING NOTES

- Cornucopia of ripe berries, dried fruits and caramelized grapes
- Pleasurable almond aroma

STELLA NOVA GIN

Spirit of Hven

95 Points - GOLD -
Beverage Testing Institute 2023
92 Points, Wine Enthusiast 2021

BRAND OVERVIEW

If Johannes Kepler was known for one thing, it was his persistence in keeping meticulous records of his findings in the skies. Stella Nova, is no different. This dry gin is aged in various barrels to produce what is assuredly one of a kind. Using different barrels with varying barrel chars, Spirit of Hven uses a solera style system to blend its aged Organic gin into a stand-alone masterpiece.

Stella Nova consists of 5 separately aged gins and blended at very specific percentages:

- 6.5% Spirit of Hven Organic Gin, The Original; rested ten (10) years in charred virgin casks made from Chinkapin Oak
- 7.3% Spirit of Hven Organic Gin, The Original;

rested eight (8) years in toasted virgin casks made from Sessile Oak

- 8.8% Spirit of Hven Organic Gin, The Original; rested three (3) years in Chinkapin casks freshly emptied Spirit of Hven Single Malt Whisky non-peated
- 8.8% Spirit of Hven Organic Gin, The Original; rested three (3) years in Chinkapin Oak casks freshly emptied Spirit of Hven peated Single Malt Whisky.
- 68.8% Spirit of Hven Organic Navy Strength Gin; rested six (6) months in Chinkapin Oak casks that previously held Spirit of Hven Organic Vodka.

Stella Nova is an effective substitute in a Martinez, Negroni or used in conjunction with nutty sweet

SOLERA PROGRAM AT HVEN

Spirit of Hven never uses more than one fifth of each barrel. Once aged gin is removed, it is directly replaced to contribute to consistency.

PRODUCT OVERVIEW

TASTING NOTES

- Initial introduction of floral, spicy notes of Keffir lime and other citrus
- On the palate vanilla marinated juniper is followed by pine, elderflower, and smoky almonds
- Balance of juniper with coriander

SERVING RECOMMENDATIONS

- Neat
- Use with vermouth in stirred cocktails in a Martinez
- Substitute Stella Nova for rum in a Mai Tai

TASTING NOTES

UNDILUTED

The whisky shows fruitiness coated by a mild, balanced and very clear smokiness.

- Barley aroma complemented by coconut and almonds
- Fresh with distinct smokiness and straight forward malt
- The sweetness of vanilla and toffee oak is well balanced with the stringency of the French Oak

DILUTED

The whisky uncovers the soft balanced notes of the barley mash-bill, the chocolate malt becomes more evident and the smoke and peat a bit rounder. The fruitiness matures a fraction and moves to ripe apples and hints of licorice.

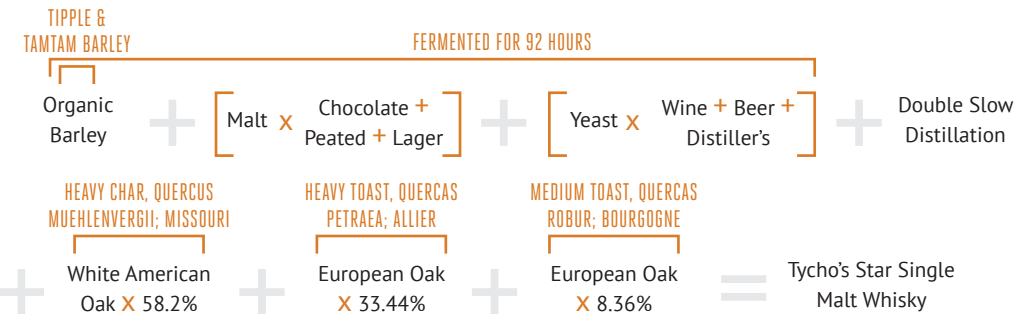

- Honey and fudge blend with sweet wine aromas and wet wood jelly
- Well balanced with a medium-long aftertaste
- Enticing smokiness combined with an oiliness showcases the round maturity from cask maturation

92 Points - GOLD - "Exceptional" - "Best Buy",
Beverage Testing Institute
91 Points - "Best Buy", Wine Enthusiast 2016
SILVER, American Distilling Institute 2016

BRAND OVERVIEW

The name "Turin Vermouth" and "Tuvé" are derived from historical familial recipes displaying the liquor tradition of the Piedmont capital. The distillery was born in the historic town where the deep roots of Vermouth originated in 1786.

More than two centuries have passed since the birth of vermouth, and since then many craftsmen, liquor masters, and artisans have settled in what was then the epicenter of Italian liqueurs. The passion of Turin Vermouth originates from the Piedmont land and its fruits. The constant dedication in search of the highest quality ingredients and the reinterpretation of ancient recipes, makes them innovators of the category.

DRAPÒ VERMOUTH

The story tells of glorious times where the tradition of the Vermouth of Turin was internationally envied. Today, the distillery stands as the only operating vermouth production within the city of Turin.

Drapò Bianco Vermouth is a sweet, soft vermouth, presenting harmony between a delicate, fresh nature and strong, engaging character of rich complexity. Its unmistakable aroma makes it suitable to be served straight, with ice, or to be used as an ingredient by barmen to create amazing cocktails.

TUVÈ

The Tuvé line was born to share the passion and warmth of Italian liquor traditions. A bitter obtained from a skillful infusion process in hydroalcoholic solution. The well balanced roots and officinal herbs, the aromatic plants, and citrus fruits give the product a classic, round, harmonious taste with fruity and delicately bitter notes, which make it unique in its kind.

It is clear, lively, with a classic carmine, shiny red. It shows some chromatic shades with complimentary nuances, ranging from blood red to coppery orange.

Turin Vermouth

93 Points, *Wine Enthusiast* 2023
92 Points - "Excellent" - Highly Recommended,
Ultimate Spirits Challenge 2018
GOLD, *American Distilling Institute* 2016

BRAND OVERVIEW

The name "Turin Vermouth" and "Tuvé" are derived from historical familial recipes displaying the liquor tradition of the Piedmont capital. The distillery was born in the historic town where the deep roots of Vermouth originated in 1786.

More than two centuries have passed since the birth of vermouth, and since then many craftsmen, liquor masters, and artisans have settled in what was then the epicenter of Italian liqueurs. The passion of Turin Vermouth originates from the Piedmont land and its fruits. The constant dedication in search of the highest quality ingredients and the reinterpretation of ancient recipes, makes them innovators of the category.

TUVÈ

The Tuvé line was born to share the passion and warmth of Italian liquor traditions. Tuvé Black Note Amaro is an amaro that can give an intense and unforgettable harmony. Delicate and sweet, enriched by some fresh citrus and rhubarb notes, Black Note Amaro is a superior quality product that uses only extracts of plants, herbs, flowers, roots, fruits, directly prepared by Turin Vermouth in its own manufacturing facility, with an exclusive extraction technology.

TUVÈ

The Tuvè line was born to share the passion and warmth of Italian liquor traditions. Tuvè Fernet is a strong and bitter digestive with a refined heart, obtained from the prolonged infusion of herbs and spices. This includes mint of Pancalieri which is considered the best in the world for the fineness of the perfume, pleasant taste, and medicinal properties. Of a classic dark color, it also presents some amber shades. Both the aroma and the taste reveal themselves in a decisive, intense and very persistent way on the palate.

LA VICTOIRE BOURBON BATCH NO. 1

Two Worlds

91 POINTS - Wine Enthusiast 2023
GOLD - The American Whiskey Masters 2020

Named to honor Marquis de La Fayette, Two Worlds Whiskey celebrates the historic French-American alliance by uniting the traditions and savoir-faire of both countries to create truly unique whiskey. Founder, Ashley Donahey, is the 5th great granddaughter of William Downard who joined the American Revolution in 1778. Following the war, Downard went into the whiskey business. Ashley is not only following her passion, but also her family history.

The La Victoire line features limited edition small batch bourbon whiskies made from barrels of whiskey distilled and aged in the United States that have been carefully selected and blended according to custom

recipes crafted by their master blender. These batches are then shipped to France, where they are bottled and packaged. Aiming to reduce environmental impact, the gift boxes for the whiskies are 100% recyclable, made in France in a carbon neutral facility.

La Victoire Batch No. 1 is a small batch of just 11 barrels, and 2,107 bottles produced with each being individually numbered, released in 2020. La Victoire edition features a core of complex 14-year-old straight bourbon whiskey balanced with a delicate, fruity four-year old straight bourbon whiskey and rounded out by a creamy five-year old straight bourbon whiskey.

Barrel Strength – No additives – Non-chill filtered

LA VICTOIRE FOUR-GRAIN AMERICAN WHISKEY SECOND EDITION

Two Worlds

GOLD - The American Whiskey Masters, 2020

Named to honor Marquis de La Fayette, Two Worlds Whiskey celebrates the historic French-American alliance by uniting the traditions and savoir-faire of both countries to create truly unique whiskey. Founder, Ashley Donahey, is the 5th great granddaughter of William Downard, who joined the American Revolution in 1778. Following the war, Downard went into the whiskey business. Ashley is not only following her passion, but also her family history.

The La Victoire line features limited edition small batch bourbon whiskeys made from barrels of whiskey distilled and aged in the United States that have been carefully selected and blended according to custom recipes crafted by their master blender. These batches are then shipped to France,

where they are bottled and packaged. Aiming to reduce environmental impact, the gift boxes for the whiskeys are 100% recyclable, made in France in a carbon neutral facility.

La Victoire Batch 2 is exceptional four-grain American whiskey distilled from corn (48%), wheat (35%), barley (9%), and rye (8%), and aged between five and eleven years in primarily new American oak. Released in 2023 and produced with just 10 barrels and bottled at 57.5% ABV, La Victoire Batch 2, is more limited than Batch 1, with 990 bottles produced – each one individually numbered. This limited edition is a testament to the meticulous whiskey-making traditions of the USA, particularly Kentucky.

ALLIANCE SINGLE BARREL AMERICAN WHISKEY NO. 1 RED WINE CASK FINISHED

Two Worlds

Named to honor Marquis de La Fayette, Two Worlds Whiskey celebrates the historic French-American alliance by uniting the traditions and savoir-faire of both countries to create truly unique whiskey. Founder, Ashley Donahey, is the 5th great granddaughter of William Downard, who joined the American Revolution in 1778. Following the war, Downard went into the whiskey business. Ashley is not only following her passion, but also her family history.

The Alliance range is named to honor of the frigate warship that twice carried Marquis de Lafayette back to France during the American Revolutionary War. This single barrel release was created from a reserved barrel of their La Victoire Batch No 2, a four-grain American whiskey aged in American oak between 5 and 11 years in primarily new American oak. It is then finished in a custom French oak red

wine cask from the prestigious Domaine de la Frégate in the south of France. The barrel is first treated with their '22 vintage Bandol Rouge for five and a half months and then filled with whiskey. After monthly tracking, the whiskey was deemed highly favorable after five months of aging, resulting in 309 bottles of the anticipated whiskey that were bottled in Cognac.

COFFEE FLAVORED WHISKEY

Ugly Mug

GOLD, John Barleycorn Awards 2023
GOLD, New York International Spirits Competition 2022
BRONZE, New York World Spirits Competition 2022

BRAND OVERVIEW

Ugly Mug was birthed from a love for flavored whiskey. With 30 years experience in the industry, Jim Landis is the architect behind Ugly Mug. He originally included the signature coffee-flavored whiskey in his William Wolf line of whiskies. After Ugly Mug began having a cult following, he decided to make this coffee whiskey its own brand.

While quality has always been of utmost importance, James and team wanted the coffee flavored whiskey to be a fun, relatable brand. They didn't take themselves too seriously and have even included "mug shots" of

people holding their whiskey bottles to promote the brand. Ugly Mug was made for the people and continues with this ethos as a stand alone brand many years later.

Ugly Mug blends the flavor of real coffee with the smoothness of premium whiskey. The espresso-like nose and the bright, slightly dry finish create the perfect balance of taste.

Villa Zarri

10-YEAR ASSEMBLAGGIO TRADIZIONALE ITALIAN BRANDY

Villa Zarri Distillery

91 Points, Excellent, Highly Recommended -
Ultimate Spirits Challenge 2023

The Villa Zarri, located in Emilia Romagna Italy, and is a truly breathtaking Villa dating back to 1578. Although renovated in the eighteenth century, the Villa still boasts an enclosed park with a round tympanum in the center. Still remaining is a chapel dedicated to Saint Joseph in which an inscription reveals it was built by the Marchese Nerio Lorenzo Pietro Angelelli "upon returning from his travels to distant lands". The Villa has been passed onto Leonida Zarri who restored the villa to its current state, in which visitors can enjoy.

In 1986 the Brandy Villa Zarri was born with the aim of becoming the best Italian Brandy in the world. The Zarri family, currently headed by Guido Zarri, began with Guido's father purchasing The Villa Zarri during WWII.

The Villa Zarri products are housed in 350-liter French oak barrels in which the pores of the wood breathe

oxygen and contact the distillate. After a set period of time, the brandy is transferred to exhausted barrels (used for at least 5 years) to allow the oxidation process to finalize. The barrels are stored in humid cellars approx. 80-90% humidity year-round, allowing the ABV to descend and become softer and more palatable. The final alcohol content of 44-45% is believed to be the optimal percentage to maximize the enhancement of the distillate.

The 10-year is produced in a limited quantity of 10,000 bottles per year. It was curated to be the strong foundation for every Villa Zarri product thereafter. The name "Traditional Blend" is used to show that the brandy which is bottled is made up of a blend of various distillates of different years and ageings. The number of years shown on the label refers to the most recent year present in the blend. However, typically the average ageing is older than the year advertised on the bottle.

Viñas de Oro stands to make the best pisco of Peru and the most selected products created to delight the world. Bodegas Viñas de Oro is located 133 miles south of Lima, Peru in the traditional district of El Carmen, Chincha in Ica. A father and son duo, Mr. Pedro and Mario Brescia have a background in agriculture engineering and a heart for adventure.

The winery opened their doors in 1983 as part of the "Breca" Agrícola unit, a Peruvian business by the Brescia Cafferata family which has been in business for over 100 years. The extensive property covers 800 hectares, 80 of which are dedicated to growing six types of pisco grapes.

Viñas de Oro values social and environmental responsibility in farming and production methods. Traditional distillation combined with modern production techniques ensure an exquisite pisco collection of the highest quality.

Contemporary and rich in sensations, Viñas de Oro exquisite variety of products are made from the most premium grapes. The Premium Line is characterized by their emblematic, patented bottle of conical shape that allows us to appreciate the transparency and purity of pisco. A pisco that states style.
